**DESCRIPTION**

Written and edited by today's most-recognized interventional cardiology thought leaders, this popular guide focuses on key procedures and techniques. Each strategic or tactical move is graded by complexity level and described in a simple, step-by-step approach that includes guidance on how to overcome practical difficulties and navigate particularly challenging clinical scenarios and complications.

It offers interventional cardiologists, fellows in interventional cardiology, cath lab nurses and technicians; vascular surgeons and fellows, interventional radiologists:

- **"Tips and tricks"** gathered from the personal experience of over fifty international experts

- **Clear, practical, step-by-step guidance** on the latest procedures and techniques, performing challenging interventions, and managing complications and other difficult situations where evidence may be limited or inconsistent

- **New coverage of hot topics** such as percutaneous aortic valve replacement, renal artery ablation, intracranial interventions, and more

**ABOUT THE AUTHOR**

**Thach N Nguyen**, MD, FACC, FACP, FSCAI Director of Cardiology, Community Health System, St Mary Medical Center, Hobart, IN, USA. Since 1992, he actively participated in the organization of the Great Wall International Congress of Cardiology, the largest
