Add value to your organization via the mergers & acquisitions IT function

As part of Deloitte Consulting, one of the largest mergers and acquisitions (M&A) consulting practice in the world, author Janice Roehl-Anderson reveals in *M&A Information Technology Best Practices* how companies can effectively and efficiently address the IT aspects of mergers, acquisitions, and divestitures. Filled with best practices for implementing and maintaining systems, this book helps financial and technology executives in every field to add value to their mergers, acquisitions, and/or divestitures via the IT function.

- Features a companion website containing checklists and templates
- Includes chapters written by Deloitte Consulting senior personnel
- Outlines best practices with pragmatic insights and proactive strategies

Many M&As fail to meet their expectations. Be prepared to succeed with the thorough and proven guidance found in *M&A Information Technology Best Practices*. This one-stop resource allows participants in these deals to better understand the implications of what they need to do and how
ABOUT THE AUTHOR

JANICE M. ROEHL-ANDERSON is a Principal at Deloitte Consulting LLP, coordinating key components of the M&A IT-related services area. She has been responsible for leading some of Deloitte's most complex global mergers, acquisitions, divestitures, and initial public offering projects from a technology perspective. She has written numerous books on controllership and information technology and successfully passed the CPA exam.
