Textbook of Pharmacoepidemiology
Brian L. Strom (Editor), Stephen E. Kimmel (Editor)

DESCRIPTION

The Textbook of Pharmacoepidemiology provides a streamlined text for evaluating the safety and effectiveness of medicines. It includes a brief introduction to pharmacoepidemiology as well as sections on data sources, methodology and applications. Each chapter includes key points, case studies and essential references.

- One-step resource to gain understanding of the subject of pharmacoepidemiology at an affordable price
- Gives a perspective on the subject from academia, pharmaceutical industry and regulatory agencies
- Designed for students with basic knowledge of epidemiology and public health
- Includes many case studies to illustrate pharmacoepidemiology in real clinical setting
