O-Book 978-1-118-81653-0 December 2013 Available on Wiley Online Library

DESCRIPTION

By examining the role of evidence in social policymaking and the extent of its influence, *Evidence and Evaluation in Social Policy* delves deeply into one of the central questions of the field for the last 20 years.

• Chronicles the trend towards evidence-based policy over the last decade

• Assesses the ways in which scarce resources can best be used for the best care, particularly in times of austerity

• Describes methodological innovation, the ways in which researchers and politicians are working together effectively, and suggestions for future improvement

• Covers topics such as the role of randomized controlled trials in shaping public policy; the pitfalls of evidence-based policy as a prescriptive ideal; the challenges of measuring public support for policy interventions; and the benefits of engaging local government decision-makers with evaluation research

ABOUT THE AUTHOR

Bent Greve is Professor in Social Science with an emphasis on Welfare State Analysis at Roskilde University, Denmark. He is Regional and Special Issues Editor of *Social Policy & Administration* and has published extensively on social and labor market

**Ian Greener** is Professor in the School of Applied Social Sciences at Durham University, UK, as well as being Director of the ESRC North-East Doctoral Training Centre there. His research interests include the use of evidence in policy, healthcare reorganization, and the means by which policymaking can become more evidence-driven. He is the author of three books on research methods, public management, and healthcare, including *Designing Social Research: A Guide for the Bewildered* (2011). He is also the author of over 50 peer-reviewed journal articles, mostly concerned with health policy.
