C. James Goodwin

DESCRIPTION

Goodwin's 5th Edition focuses on the reduction of biographical information with an emphasis on more substantial information including ideas and concepts and on ideas/research contributions.

ABOUT THE AUTHOR

C. James Goodwin is an emeritus professor at Wheeling Jesuit University, where he taught for 30 years before taking an early retirement. He is currently residing in the mountains of North Carolina and is Professor of Psychology at Western Carolina University. He earned a Bachelor's degree from the College of the Holy Cross and a Master's and PhD in experimental psychology from Florida State University, specializing in memory and cognition. He is a Fellow of the American Psychological Association in Divisions 2 (teaching) and 26 (history). His research interests on the empirical side are in the area of cognitive mapping, wayfinding, and spatial cognition, but his prime interest is in the early history of experimental psychology in the United States. He is the author of two undergraduate textbooks, one in research methods (*Research in Psychology: Methods and Design*) and one in the history of psychology (*A History of Modern Psychology*)
NEW TO EDITION

• In order to keep up with scholarship in the history of psychology, there is a net increase of 50 references in this new edition.

• Biographical information has been reduced and replaced with more information on psychology’s important concepts, research, and theories.

• A new type of boxed insert, From the Miles Papers, appears in 9 of the 15 chapters. These involve excerpts taken from documents in the Walter Miles papers, included to add depth to chapter topics, and to give students some insight into the kind of material likely to be found in archival collections.

FEATURES

• Each chapter concludes with a detailed Summary of the chapter’s contents and a brief annotated list of articles and/or books in For Further Reading.

• Key Date sections identify years that corresponds to especially important events in psychology's history.

• To further enable students to make links between psychology and the rest of the world, timelines are included within the front and back inside covers of the text.
• An online Student Study Guide includes a guided concept review and several different forms of sample test material, with feedback.
