DESCRIPTION

*Companion to Dental Anthropology* presents a collection of original readings addressing all aspects and sub-disciplines of the field of dental anthropology—from its origins and evolution through to the latest scientific research.

- Represents the most comprehensive coverage of all sub-disciplines of dental anthropology available today
- Features individual chapters written by experts in their specific area of dental research
- Includes authors who also present results from their research through case studies or voiced opinions about their work
- Offers extensive coverage of topics relating to dental evolution, morphometric variation, and pathology

ABOUT THE AUTHOR

*Joel D. Irish* is Professor of Bioarchaeology in the Research Centre in Evolutionary Anthropology and Palaeoecology at Liverpool John Moores University, UK, and Professor Emeritus in the Anthropology Department at the University of Alaska Fairbanks. He is former Associate Editor of the *American Journal of Physical Anthropology*, and his publications focus on dental nonmetric variation and biological affinity.
G. Richard Scott is Professor of Anthropology at the University of Nevada Reno, and Professor Emeritus at the University of Alaska Fairbanks, where he taught for 24 years. He has published widely on issues relating to tooth crown and root morphology and biological affinity.
