DESCRIPTION

The Textbook of Non-Medical Prescribing is an easy-to-read, comprehensive overview of the essential knowledge, key issues and skills relevant to non-medical prescribing. Now fully updated and linked to the National Prescribing Centre Single Competency Framework for non-medical prescribers, with activities to help you link your continuing professional development within the competences required as a prescriber. This practical title remains an ideal resource for all qualified health professionals to practice safe and effective non-medical prescribing.

The section edition is structured around four core themes – public health, social and cultural issues, prescribing principles, and continuing professional development – which are threaded throughout the text. It also includes additional material on the importance on continuing professional development in prescribing, as well as the history and context of non-medical prescribing; ethical, legal and professional issues; effective consultations; essential pharmacology; clinical skills; prescribing for specific groups; and the role of the multidisciplinary team.

Key Features:

• Accessible and study-friendly

• Each chapter has learning objectives and activities to support a deeper understanding of the theoretical knowledge base and its application to practice

• Case studies linking the topics to real-life scenarios
Companion website at www.wiley.com/go/nuttall with a range of self-assessment questions, quizzes, numeracy exercises, case studies and weblinks.

*The Textbook of Non-Medical Prescribing* provides support to anyone studying for a prescribing qualification or looking for a refresher on the subject.
