Line Loss Analysis and Calculation of Electric Power Systems
Anguan Wu, Baoshan Ni

DESCRIPTION

Presents the fundamentals and calculation of transmission line losses, their reduction, and economic implications

• Written by a very experienced expert in this field

• Introduces various technical measures for loss reduction, and appended with a large number of examples

• Offers a progressive and systematic approach to various aspects of the problems

• A timely and original book to meet the challenges of power and grid industry development

ABOUT THE AUTHOR

Anguan Wu, North China Electric Power University, China

Baoshan Ni, Zhejiang University, China
