Organizational Behaviour, Third Edition, builds on the strengths and successes of the previous editions and has been fully updated to reflect changes in the world of work and the context of organizational behaviour within that world.

The authors combine a managerial approach, focusing on practical, real-world applications, with a rigorous critical perspective that analyses the research behind the theories. The text addresses alternative theoretical perspectives, in parallel to the introduction of new worldwide cases and examples. The concise coverage of the core topics can be applied to both one-semester and year-long teaching and learning patterns.

In addition, the text includes a strong applied focus stressing the applicability of all topic areas in work organisations, as well as examples from across a wide variety of business and geographic sectors.

The fully updated online resource package at www.wiley.com/college/french includes PowerPoint slides, a lecturer test bank, instructor's manual and additional cases. Students can access self-test quizzes, glossary flashcards, a student study guide and links to relevant journal articles, as well as interactive modules and skills assessments.
ABOUT THE AUTHOR

Ray French is a Principal Lecturer in Organizational Behaviour at the University of Portsmouth Business School, UK. Dr French has occupied a number of management roles at the same university and is currently Associate Head of the Organization Studies and HRM Subject Group at Portsmouth Business School.

Charlotte Rayner is Professor of Human Resource Management at Portsmouth Business School, UK. Most recently she has been working in the field of Meaning at Work within Positive Organizational Scholarship.
