## DESCRIPTION

*Online Risk to Children* brings together the most up-to-date theory, policy, and best practices for online child protection and abuse prevention.

- Moves beyond offender assessment and treatment to discuss the impact of online abuse on children themselves, and the risks and vulnerabilities inherent in their constantly connected lives
- Global in scope, setting contributions from leading researchers and practitioners in the UK in international context via chapters from Australia, the USA and Europe.
- Key topics covered include cyberbullying, peer-oriented abuse, victim treatment approaches, international law enforcement strategies, policy responses, and the role of schools and industry
