DESCRIPTION

Grow revenue by leveraging behavioral marketing during your next campaign

_Behavioral Marketing_ guides you in using relatively new marketing tactics to grow revenue and create process efficiencies. An incredibly valuable text, this book defines the key principles of behavioral marketing—including customer journey mapping, channel-level planning, data capture and hygiene, campaign creation, delivery best practices, and measurement/optimization—and shows you how to fix highly inefficient processes while implementing your next marketing initiative. Within the pages of this resource are the secrets to improving processes and becoming more ‘revenue predictable’—things that benefit businesses in virtually any industry. Additionally, this book provides you with case studies that spotlight the successes and challenges experienced by other marketing pros, and offer up key lessons to assist you in sharing their triumphs and avoiding their pitfalls.

Behavioral marketing, a term first coined in 2008, has become increasingly important as digital marketing tactics have becoming increasingly popular. This particular facet of marketing focuses on responding to the actions, clicks, and behaviors of both current and prospective customers—and allows you to use this data to adapt your marketing efforts to customer preferences. The results of this dynamic marketing approach are often a more predictable revenue stream and a more efficient marketing department, both of which any business would welcome!

- Understand the key principles of behavioral marketing
- Create a more ‘revenue predictable’ business environment
- Examine case studies across multiple industries
Discover how to achieve revenue growth and process efficiencies with the right behavioral marketing tactics.

*Behavioral Marketing* is a unique resource that brings value and insight to all marketing professionals using digital marketing tactics.

---

**ABOUT THE AUTHOR**

**DAVE WALTERS** is a digital marketing evangelist at Silverpop, an IBM-owned software company focused on helping marketers transform the customer experience. He is a 20-year digital marketing veteran with a career split almost equally among Fortune 50 corporations, Top 5 interactive agencies and, most recently, the technology start-up world. He most often works with cross-functional stakeholders to bridge the organizational gaps between marketing, IT, operations and executive management.
