**DESCRIPTION**

- Facilitates the process of learning and later mastering Aspen Plus® with step by step examples and succinct explanations
- Step-by-step textbook for identifying solutions to various process engineering problems via screenshots of the Aspen Plus® platforms in parallel with the related text
- Includes end-of-chapter problems and term project problems
- Includes online exam and quiz problems for instructors that are parametrized (i.e., adjustable) so that each student will have a standalone version
- Includes extra online material for students such as Aspen Plus®-related files that are used in the working tutorials throughout the entire textbook

**ABOUT THE AUTHOR**

Kamal Al-Malah, is professor of chemical engineering at Higher Colleges of Technology, United Arab Emirates and former chairman of the chemical engineering department at the University of Hail in Saudi Arabia. He holds B.S., M.S., and Ph.D. degrees in chemical/biochemical engineering. Dr. Al-Malah graduated from Oregon State University in 1993 and his area of specialty deals
with mathematical modeling, optimization, simulation, and computer-aided design. Professor Al-Malah is Windows-based software developer and MATLAB® book author.
