As rapid advances in biotechnology occur, there is a need for a pedagogical tool to aid current students and laboratory professionals in biotechnological methods; *Methods in Biotechnology* is an invaluable resource for those students and professionals.

*Methods in Biotechnology* engages the reader by implementing an active learning approach, provided advanced study questions, as well as pre- and post-lab questions for each lab protocol. These self-directed study sections encourage the reader to not just perform experiments but to engage with the material on a higher level, utilizing critical thinking and troubleshooting skills.

This text is broken into three sections based on level – *Methods in Biotechnology*, *Advanced Methods in Biotechnology I*, and *Advanced Methods in Biotechnology II*. Each section contains 14-22 lab exercises, with instructor notes in appendices as well as an answer guide as a part of the book companion site. This text will be an excellent resource for both students and laboratory professionals in the biotechnology field.

**ABOUT THE AUTHOR**

SEUNG-BEOM HONG is a Visiting Assistant Professor of Biotechnology at the University of Houston-Clear Lake in Houston, TX, USA.
M. BAZLUR RASHID is an Associate Professor of Biology and Biotechnology and former Program Chair of Biotechnology at the University of Houston-Clear Lake in Houston, TX, USA.

LORY Z. SANTIAGO-VÁZQUEZ is an Associate Professor of Biotechnology at the University of Houston-Clear Lake in Houston, TX, USA.
