DESCRIPTION

*Activity Based Costing for Construction Companies* provides guidelines on how overhead costs can be managed for using Activity Based Costing (ABC), providing gains in contractor competitiveness. Illustrated with a range of case studies and examples it also presents a map that shows construction contractors how to implement ABC to calculate overhead costs accurately, identifying non or low-value added operations which can then be improved.

ABOUT THE AUTHOR

**Yong-Woo Kim** is Associate Professor of Construction Management in the Department of Construction Management at the University of Washington, Seattle, WA, USA.
