**DESCRIPTION**

This book shares the technical knowhow in the field of health, safety and environmental management, as applied to oil and gas industries and explains concepts through a simple and straightforward approach.

- Provides an overview of health, safety and environmental (HSE) management as applied to offshore and petroleum engineering.
- Covers the fundamentals of HSE and demonstrates its practical application.
- Includes industry case studies and examples based on the author's experiences in both academia and oil and gas industries.
- Presents recent research results.
- Includes tutorials and exercises.

**ABOUT THE AUTHOR**

Srinivasan Chandrasekaran, Indian Institute of Technology Madras, India

Dr. Chandrasekaran is a Professor in the Department of Ocean Engineering at the Indian Institute of Technology Madras. His main areas of research include dynamic analysis and design of offshore platforms, subsea engineering, rehabilitation and retrofitting of
offshore platforms, structural health monitoring of ocean structures, seismic analysis and design of structures, risk analyses and reliability studies of offshore and petroleum engineering plants.
