DESCRIPTION

Canine and Feline Geriatric Oncology: Honoring the Human-Animal Bond, Second Edition provides a complete clinical approach to the most common neoplasias in geriatric dogs and cats.

• Provides the tools needed to diagnose and treat aging pets with cancer and to help clients make the best decisions for themselves and their animals

• Addresses the "what-ifs" that often arise during interactions with clients of aging pets with cancer and helps to determine when a pet should enter the hospice phase

• Features many vignettes and real-life case studies to demonstrate the issues faced by clinicians and owners dealing with older dogs and cats with cancer and end-of-life issues

• Fully updated and expanded with new and revised information, including new knowledge on palliative and hospice care and self-care techniques for carers
