## DESCRIPTION

*Introduction to the Human Body* combines exceptional content and outstanding visual, auditory, and interactive presentations for a multimodal and comprehensive learning experience. This digital course gives students the ability to learn and explore anatomy and physiology both inside and outside of the classroom.

## ABOUT THE AUTHOR

**Gerard J. Tortora** is Professor of Biology and former Biology Coordinator at Bergen Community College in Paramus, New Jersey, where he teaches human anatomy and physiology as well as microbiology. He received his bachelor’s degree in biology from Fairleigh Dickinson University and his master’s degree in science education from Montclair State College. He is a member of many professional organizations, including the Human Anatomy and Physiology Society (HAPS), the American Society of Microbiology (ASM), American Association for the Advancement of Science (AAAS), National Education Association (NEA), and the Metropolitan Association of College and University Biologists (MACUB).

**Bryan Derrickson** is Professor of Biology at Valencia Community College in Orlando, Florida, where he teaches human anatomy and physiology as well as general biology and human sexuality. He received his bachelor’s degree in biology from Morehouse College and his doctorate in cell biology from Duke University. Bryan studied at Duke in the Physiology Division of the Department...
of Cell Biology, so while his degree is in cell biology, his training focused on physiology. At Valencia, he has served as a member of the Faculty Senate, which is the governing body of the college, and as a member of the Teaching and Learning Academy, which sets the standards for the acquisition of tenure by faculty members. Nationally, he is a member of the Human Anatomy and Physiology Society (HAPS) and the National Association of Biology Teachers (NABT).

NEW TO EDITION

- Expanded and updated physiology coverage across the entire course.
- New Scanning Electron Microscope (SEM) images added to multiple sections.
- Significant updates to the art in the Cardiovascular System sections.
- WileyPLUS Media Updates include: 5 new 3-D Physiology Animations (now 15 total); new interactive graphics, which enhance viewer experience. Multi-part figures are now displayed as slideshows, which eliminates scrolling. Refreshed ORION diagnostics based on actual student usage; Human and Animal Dissection Videos are now available in the Key Resource Ribbon; Transcripts have been added for Hear This Illustration audio lectures.

FEATURES

- Interactive Graphics: Make content visually accessible to students as they engage with print content. They are in place for multi-part figures, including multi-parts that zoom in on a given structure.
- Key Resources Ribbon: Puts the course’s Anatomy and Physiology media at student and faculty’s fingertips.
- **Anatomy Resources** include: Concept Lectures, Real Anatomy Cadaver Dissection, Muscles in Motion, Anatomy Drill and Practice; and Cat, Pig, Rat and Human dissection videos.

- **Physiology Resources** include: 3-D Physiology animations, the entire Interactions program (of overviews, animations, exercises & more) as well as PowerPhys – Physiological Lab Simulation software.
