Real-world leadership training for real-world students

The Student Leadership Challenge tailors one of the world’s most respected leadership models to students’ unique needs, and provides a proven pathway to success. Based on The Five Practices of Exemplary Leadership, this book merges solid research with personal stories from real-world student leaders to help students develop the critical skills they need to lead both now and after graduation. Useful from high school to graduate school and beyond, these lessons are reinforced by reflective and critical thinking activities to help students internalize important concepts while honestly assessing their own practices. Updated and expanded, this new third edition includes four extra chapters to allow deeper investigation, while broader, deeper, and more vivid examples from real-life students illustrate what student leadership looks like around the world. New discussion delves into the research behind the model, as well as the usefulness of leadership in the transition to post-graduate life.
