DESCRIPTION

Financial Accounting: Tools for Business Decision Making, Ninth Edition, provides a simple and practical introduction to financial accounting. It explains the concepts students need to know, while also emphasizing the importance of decision making. In this new edition, all content has been carefully reviewed and revised to ensure maximum student understanding. At the same time, the time-tested features that have proven to be of most help to students such as the student-friendly writing style, visual pedagogy, and the relevant and easy-to-understand examples have been retained.

NEW TO EDITION

• New updated Interactive Tutorials: Our popular Interactive Tutorials are responsively designed to fit nearly on all screens, giving students the opportunity to study anytime, anywhere and are ADA compliant.

• Revised Test Bank: With 30% new or revised content, the test bank makes it easier for instructors to tailor examinations according to multiple learning outcomes.

• Five new Excel Function Videos related to Data Analytics: Data Analytics is a hot topic in accounting and these videos will help students to learn the competencies they need to be successful in their careers.

• Updated illustrations show cash flow, balance sheet, and income statement effects of transactions.

FEATURES

• Data Analytics: With the emergence of data analytics transforming the accounting profession, the course includes a new data analytics module with industry-validated content that prepares students for the CPA Exam and the changing workforce.

• Solution Walkthrough Videos are available as question assistance and help students learn problem-solving techniques. Based on exercises and problems that are similar to some of the most highly assigned problems in the text, these solution videos guide students step-by-step through the material they need to know.

• Problem Material Design: a new problem material design for all assessment and practice questions gives students a clean, blank-sheet-of-paper interface. Improved navigation right at the objective level and a more modern design provide students with a simple and more real-world experience.

• DO IT! Exercises in the body of the text prompt students to stop and review key concepts. They outline the Action Plan necessary to complete the exercise as well as show a detailed solution.

• Review and Practice: Each chapter concludes with a Review and Practice section which includes a review of learning objectives, Decision Tools review, key terms glossary, practice multiple-choice questions with annotated solutions, practice brief exercises with solutions, practice exercises with solutions, and a practice problem with a solution.

• Infographic Learning: Over half of the text is visual, providing students alternative ways of learning about accounting.
• **Real-World Decision-Making**: Real-world examples that illustrate interesting situations in companies and how managers make decisions using accounting information are integrated throughout the text, such as in the opening Feature Story as well as the Insight boxes.

• **Decision Tools**: Accounting concepts that are useful for management decision-making are highlighted throughout the text. A summary of Decision Tools is included in each chapter as well as a practice exercise and solution, Using the Decision Tools.
