DESCRIPTION

Edited by an orthopaedic surgeon who is a leading specialist in the treatment of the musculo-skeletal complications of haemophilia. *The Haemophilic Joints: New Perspectives* reviews the different protocols for the orthopaedic management of the haemophilic articulations.

The book draws together, in a single volume, the more recent perspectives of all the orthopaedic methods that can be applied in the diagnosis and treatment of the haemophilic joints from numerous specialists worldwide. It will be an invaluable resource for all those treating the articular problems in people with haemophilia.
