DESCRIPTION

This Volume contains main papers from a conference on epistemology and, in addition, especially invited papers on that topic. The volume contains twenty-three substantial papers by leading figures, who have contributed papers representative of their current work, plus a book symposium on Knowledge and Lotteries by John Hawthorne.

ABOUT THE AUTHOR

Ernest Sosa is a Professor of Philosophy at Brown University and Rutgers University. He is author of Knowledge in Perspective (1991) and of papers in metaphysics and epistemology.

SERIES

Philosophical Issues: A Supplement to Nous
