**DESCRIPTION**

Presenting ten diverse and original moral paradoxes, this cutting edge work of philosophical ethics makes a focused, concrete case for the centrality of paradoxes within morality.

- Explores what these paradoxes can teach us about morality and the human condition
- Considers a broad range of subjects, from familiar topics to rarely posed questions, among them "Fortunate Misfortune", "Beneficial Retirement" and "Preferring Not To Have Been Born"
- Asks whether the existence of moral paradox is a good or a bad thing
- Presents analytic moral philosophy in a provocative, engaging and entertaining way; posing new questions, proposing possible solutions, and challenging the reader to wrestle with the paradoxes themselves

**ABOUT THE AUTHOR**

**Saul Smilansky** is a professor in the department of philosophy at the University of Haifa, Israel. He is the author of the widely acclaimed book, *Free Will and Illusion* (2000) and has published articles in many of the leading philosophical journals.
