100 Top Consultations in Small Animal General Practice

Peter Hill, Sheena Warman, Geoff Shawcross

DESCRIPTION

Focusing on 'day one competencies', this book offers essential guidance to the most common problems encountered in small animal general practice. Addressing 100 core scenarios, it is ideal for the undergraduate or newly qualified vet, and for those seeking an up-to-date refresher. Organized by presenting sign (diarrhoea, itching) or disease (diabetes mellitus, pancreatitis), and with colour illustration throughout, each chapter explains:

• how to make a diagnosis

• which interventions are most appropriate in general practice

• what the vet should say to the client before and after examination

The authors also offer invaluable advice on other key topics such as annual health checks, neutering and euthanasia, and they tackle the tough questions: What if it doesn’t get better? What is the low cost option? When should I refer?

Never before has so much practical information been brought together in a single volume. Like having an experienced or specialist clinician standing by your side in the consulting room, 100 Top Consultations will become a trusted companion for students and practitioners alike.
Dr Peter Hill is senior lecturer in veterinary dermatology at the University of Bristol, combining clinical and teaching responsibilities with an active research programme. He holds the RCVS Diploma in Veterinary Dermatology and is a Diplomate of the American College of Veterinary Dermatology. He is the author of over 50 scientific publications, is a former Editor of the journal Veterinary Dermatology.

Sheena Warman is currently a lecturer in Small Animal Internal Medicine at the University of Bristol with special interests in emergency medicine and critical care. She obtained the RCVS and European Diplomas in Small Animal Medicine in 2004.

Geoff Shawcross qualified from the University of Liverpool in 1970, and has since spent his whole career in general practice, dealing primarily with small animals. After taking over ownership of a small animal practice, he built it up into a veterinary hospital. He obtained the RCVS Certificate in Small Animal Orthopaedics in 1989. He has broad interests in all aspects of small animal practice and surgery.

FEATURES

* Prioritisation of conditions focusing on what is commonly seen in small animal practice from day 1

* Easy-to-navigate quick reference for use by the busy practitioner

* Covers material rarely seen in texts such as consideration of clients’ financial status and when to refer

* Well illustrated with colour images throughout
