DESCRIPTION

Plunder examines the dark side of the Rule of Law and explores how it has been used as a powerful political weapon by Western countries in order to legitimize plunder – the practice of violent extraction by stronger political actors victimizing weaker ones.

- Challenges traditionally held beliefs in the sanctity of the Rule of Law by exposing its dark side
- Examines the Rule of Law's relationship with 'plunder' – the practice of violent extraction by stronger political actors victimizing weaker ones – in the service of Western cultural and economic domination
- Provides global examples of plunder: of oil in Iraq; of ideas in the form of Western patents and intellectual property rights imposed on weaker peoples; and of liberty in the United States
- Dares to ask the paradoxical question – is the Rule of Law itself illegal?

ABOUT THE AUTHOR

Ugo Mattei is Distinguished Professor of International and Comparative Law at University of California, Hastings and at the University of Turin, Italy. He is a widely published scholar in economic and political aspects of law and his work has been translated into many languages. His professional activities have included substantive periods of teaching and research in Europe, Africa, and Latin America.
Laura Nader is Professor of Anthropology at University of California, Berkeley and is possibly the leading world authority in Anthropology of Law. She has conducted fieldwork in Lebanon, Mexico, and the US and her groundbreaking work on harmony ideology and access to law and her unmatchable publication list make Nader one of the most interesting voices in the current academic scene.
