DESCRIPTION

*History and Philosophy of Psychology* is a lively introduction to the historical development of psychology. Its distinct inclusion of ideas from both Eastern and Western philosophies offers students a uniquely broad view of human psychology.

- Whilst covering all the major landmarks in the history of psychology, the text also provides students with little-known but fascinating insights into key questions – such as whether Freud really cured his patients; what was nude psychotherapy; and were the early psychologists racist?
- Encourages students to explore the philosophical and theoretical implications of the historical development of psychology
- Explores key theoretical ideas and experiments in detail, with background to their development and valuable suggestions for further reading

ABOUT THE AUTHOR

*Man Cheung Chung* is Professor of Psychology at Zayed University in the United Arab Emirates. He has a strong interest in philosophical psychology and has published widely in health and clinical psychology. His publications include *Phenomenology and Psychological Science* (with P.D. Ashworth, 2006) and *Reconceiving Schizophrenia* (with K.W.M. Fulford & G. Graham, 2007).
Michael E. Hyland is Professor of Health Psychology at Plymouth University. His interests span theoretical psychology, health psychology, and theory development in health psychology. His publications include *Recent Trends in Theoretical Psychology* (with W. Baker, R. Hezewijk, & S. Terwee, 1990) and *Asthma Management for Practice Nurses* (1998). He is also author of *The Origins of Health and Disease* (2011).
