The importance of appropriate and effective management of patients with long term chronic conditions cannot be underestimated. *Case Management of Long-Term Conditions* aims to provide all appropriate practitioners (including nurses, pharmacists, physiotherapists, and social care practitioners) who might be involved in delivery of proactive case management with a practical understanding of how their knowledge and skills can be utilised to improve outcomes for people with chronic long-term conditions. The text contains some broad reflections on care and service delivery based on reviews of evidence and views from clinicians in the use of these skills and competencies to deliver improved outcomes for clients.

**ABOUT THE AUTHOR**

Janet Snoddon is Deputy Director of Corporate Performance & Standards, NHS Sefton. She was the Lead for Long Term conditions at both South Sefton and Southport and Formby PCTs (organisations which have now merged into NHS Sefton), developing case management services. She is also the Non Medical Prescribing clinical lead for Northwest SHA.
