$133.00

DESCRIPTION

A Reader in Medical Anthropology: Theoretical Trajectories, Emergent Realities brings together articles from the key theoretical approaches in the field of medical anthropology as well as related science and technology studies. The editors' comprehensive introductions evaluate the historical lineages of these approaches and their value in addressing critical problems associated with contemporary forms of illness experience and health care.

• Presents a key selection of both classic and new agenda-setting articles in medical anthropology

• Provides analytic and historical contextual introductions by leading figures in medical anthropology, medical sociology, and science and technology studies

• Critically reviews the contribution of medical anthropology to a new global health movement that is reshaping international health agendas

ABOUT THE AUTHOR

Byron J. Good is Professor of Medical Anthropology, Department of Global Health and Social Medicine, Harvard Medical School, and Professor in the Department of Anthropology, Harvard University.
Michael M. J. Fischer is Andrew W. Mellon Professor in the Humanities and Professor of Anthropology and Science and Technology Studies at the Massachusetts Institute of Technology, and Lecturer in the Department of Global Health and Social Medicine at Harvard Medical School.
