DESCRIPTION

This book translates fundamental knowledge in basic cardiac electrophysiology from the bench to the bedside. Revised and updated for its second edition, the text offers new coverage of the molecular mechanisms of ion channel behavior and its regulation, complex arrhythmias, and the broadening roles of devices and ablation. Clear, straightforward explanations are illustrated by plentiful diagrams to make the material accessible to the non-specialist.

ABOUT THE AUTHOR

José Jalife, M.D., F.A.C.C., F.H.R.S.

Professor and Chairman of Pharmacology
Professor of Medicine and Pediatrics
Director, Institute for Cardiovascular Research
SUNY Upstate Medical University
Syracuse, NY

Mario Delmar, M.D., Ph.D., F.H.R.S.
Professor of Pharmacology
Co-Director, Institute for Cardiovascular Research
SUNY Upstate Medical University
Syracuse, NY

**Justus Anumonwo, Ph.D.**
Assistant Professor of Pharmacology
Member, Institute for Cardiovascular Research
SUNY Upstate Medical University
Syracuse, NY

**Omer Berenfeld**

**Jerome Kalifa**
