**DESCRIPTION**

A rational exploration of the ethical and welfare issues in all areas of equine use. This book addresses controversial and emotive issues surrounding these iconic creatures, providing a reliable source of information to support informed debate. It will enable all those with an interest in horses and the uses they are put to gain an awareness of the problems and abuses that occur. The book draws on the expertise of a range of acknowledged leaders in equine health and welfare. The first part of the book explores general issues of the horse’s needs and nature. The second part contains chapters each covering a specific human use of horses and the abuses that arise as a result.

This book is part of the UFAW/Wiley-Blackwell Animal Welfare Book Series. This major series of books produced in collaboration between UFAW (The Universities Federation for Animal Welfare), and Wiley-Blackwell provides an authoritative source of information on worldwide developments, current thinking and best practice in the field of animal welfare science and technology. For details of all of the titles in the series see [www.wiley.com/go/ufaw](http://www.wiley.com/go/ufaw).

**ABOUT THE AUTHOR**

**Bernard E. Rollin** is University Distinguished Professor of Philosophy, Biomedical Sciences, Animal Sciences, and University Bioethicist at Colorado State University, USA.
C. Wayne McIlwraith is University Distinguished Professor, Barbara Cox Anthony University Endowed Chair in Orthopedics and Director of Orthopaedic Research at the Orthopaedic Research Center, Colorado State University, USA.

The Universities Federation for Animal Welfare (UFAW) is an internationally recognised, independent, scientific and educational animal welfare charity concerned with improving knowledge and understanding of animals’ needs in order to promote high standards of welfare for farm, companion, laboratory, captive wild animals and those with which we interact in the wild.
