DESCRIPTION

Through a series of essays contributed by clinicians, medical historians, and prominent moral philosophers, Cognitive Disability and Its Challenge to Moral Philosophy addresses the ethical, bio-ethical, epistemological, historical, and meta-philosophical questions raised by cognitive disability

• Features essays by a prominent clinicians and medical historians of cognitive disability, and prominent contemporary philosophers such as Ian Hacking, Martha Nussbaum, and Peter Singer

• Represents the first collection that brings together philosophical discussions of Alzheimer's disease, intellectual/developmental disabilities, and autism under the rubric of cognitive disability

• Offers insights into categories like Alzheimer's, mental retardation, and autism, as well as issues such as care, personhood, justice, agency, and responsibility
