**DESCRIPTION**

*Medical Microbiology and Infection Lecture Notes* is ideal for medical students, junior doctors, pharmacy students, junior pharmacists, nurses, and those training in the allied health professions. It presents a thorough introduction and overview of this core subject area, and has been fully revised and updated to include:

- Chapters written by leading experts reflecting current research and teaching practice

- New chapters covering Diagnosis of Infections and Epidemiology and Prevention & Management of Infections

- Integrated full-colour illustrations and clinical images

- A self-assessment section to test understanding
Whether you need to develop your knowledge for clinical practice, or refresh that knowledge in the run up to examinations, *Medical Microbiology and Infection Lecture Notes* will help foster a systematic approach to the clinical situation for all medical students and hospital doctors.
