DESCRIPTION

*Emergency Medicine Lecture Notes* provides all the necessary information, within one short volume, for a sound introduction to this core specialty area.

Presented in a user-friendly format, combining readability with flowcharts and high-quality illustrations, this fourth edition has been thoroughly revised to reflect recent advances in the field of emergency medicine. For this new edition, *Emergency Medicine Lecture Notes* features:

- Illustrations and flow charts in a two colour presentation throughout
- More detail on imaging, diagnosis and management of a wide range of acute conditions
- A brand new companion website at www.lecturenoteseries.com/emergencymed featuring a selection of MCQs to test readers on common pitfalls in emergency medicine

Not only is this book a great starting point to support initial teaching on the topic, but it is easy to dip in and out of for reference or revision at the end of a module, rotation or final exams. Whether you need to develop or refresh your knowledge of emergency medicine, *Emergency Medicine Lecture Notes* presents 'need to know' information for all those involved in treating those in an emergency setting.
