The third edition of this established textbook has been thoroughly updated and revised. It maintains its broad coverage of topics from phonetics to language variation, and increases its accessibility by incorporating a more descriptive, less theoretical approach.

- A fully updated new edition of this successful textbook introducing students to a wide range of issues, phenomena, and terminology in Japanese linguistics

- Includes extensive revisions to the chapters on phonetics, syntax and phonology, and incorporates a less theoretical, more descriptive approach

- Features the author’s own data, examples and theoretical analyses throughout

- Offers an original approach by discussing first and/or second language acquisition within each chapter

- Includes exercises exploring descriptive and theoretical issues and reading lists which introduce students to the research literature, both of which have been updated in this new edition
Natsuko Tsujimura is Chair and Professor in the Department of East Asian Languages and Cultures and Adjunct Professor in the Department of Linguistics at Indiana University. She is the editor of *The Handbook of Japanese Linguistics* (Wiley-Blackwell, 1999) and *Japanese Linguistics: Critical Concepts* (2005), and is Review Editor of the journal *Language*. She has published extensively on various aspects of Japanese linguistics, including phonology, syntax, semantics, and sociolinguistics.
