Arlene Coulson, Noreen Lewis (With)

Hardcover ISBN: 978-1-405-13899-4 June 2008 $305.75

DESCRIPTION

This is the definitive reference for the small animal practitioner to normal radiographic anatomy of the cat and dog. With over forty years of experience between them, the authors have produced an invaluable reference atlas for the veterinary practitioner. The book is suitable for the general and referral based practitioner, undergraduate or postgraduate veterinary surgeon.

- Over 550 radiographic images analysed and explained
- More than 50 new figures added, with the quality of existing images enhanced
- Revised contents and page headers for easy-reference
- Clear informative line drawings to trace radiographic shadows and schematic drawings of underlying structures not seen in plain radiographs.

ABOUT THE AUTHOR

Arlene Coulson was awarded her Diploma in Veterinary Radiology by the Royal College of Veterinary Surgeons (RCVS), London, in 1980 and has since continually offered a consultant veterinary radiology service for veterinary surgeons in general practice. She has served as Chairman of the RCVS Radiology Board.
**Noreen Lewis** was awarded her Diploma in Veterinary Radiology by the Royal College of Veterinary Surgeons, London, in 1978. She has since been continually involved in radiography and radiology within both general practice and specialist centres. Both authors have acted as postgraduate tutors and served as examiners for the RCVS Certificate in Veterinary Radiology.

---
