DESCRIPTION

A Companion to Cognitive Anthropology offers a comprehensive overview of the development of cognitive anthropology from its inception to the present day and presents recent findings in the areas of theory, methodology, and field research in twenty-nine key essays by leading scholars.

• Demonstrates the importance of cognitive anthropology as an early constituent of the cognitive sciences

• Examines how culturally shared and complex cognitive systems work, how they are structured, how they differ from one culture to another, how they are learned and passed on

• Explains how cultural (or collective) vs. individual knowledge distinguishes cognitive anthropology from cognitive psychology

• Examines recent theories and methods for studying cognition in real-world scenarios

• Contains twenty-nine key essays by leading names in the field
