DESCRIPTION

Virtually every aspect of mitochondrial research and medicine is addressed in this volume, including mitochondrial function and dysfunction, free radical biology relevant to mitochondrial dysfunction, the role of mitochondria in apoptosis, and abnormal signaling processes and disease mechanisms associated with aging, mtDNA mutations, or mitochondrial damage.

NOTE: Annals volumes are available for sale as individual books or as a journal. For information on institutional journal subscriptions, please visit www.blackwellpublishing.com/nyas.

ACADEMY MEMBERS: Please contact the New York Academy of Sciences directly to place your order (www.nyas.org). Members of the New York Academy of Science receive full-text access to the Annals online and discounts on print volumes. Please visit http://www.nyas.org/MemberCenter/Join.aspx for more information about becoming a member.

ABOUT THE AUTHOR

Yau-Huei Wei is the editor of The Role of Mitochondria in Human Aging and Disease: From Genes to Cell Signaling, Volume 1042, published by Wiley. Horng-Mo Lee is the editor of The Role of Mitochondria in Human Aging and Disease: From Genes to Cell Signaling, Volume 1042, published by Wiley.
SERIES
