**DESCRIPTION**

This new book presents new ceramic information in two parts. The first section presents state-of-the-art information on new measurements and characterization methods in the ceramic manufacturing process including characterization of mechanical properties, microstructure, and machining techniques, as well as the status on the activity of standards in ceramics. The second part is a selection of peer-reviewed research papers in this field.

This volume will prove indispensable for academic as well as industry researchers and for anyone seeking broader knowledge on the quality improvements through new measurements and processing technology.

**ABOUT THE AUTHOR**

Minoru Matsui is the editor of *Improved Ceramics through New Measurements, Processing, and Standards*, published by Wiley.

Said Jahanmir is the editor of *Improved Ceramics through New Measurements, Processing, and Standards*, published by Wiley.

Hamid Mostaghaci is the editor of *Improved Ceramics through New Measurements, Processing, and Standards*, published by Wiley.

Makio Naito is the editor of *Improved Ceramics through New Measurements, Processing, and Standards*, published by Wiley.
Keizo Uematsu is the editor of *Improved Ceramics through New Measurements, Processing, and Standards*, published by Wiley.

Rolf Wasche is the editor of *Improved Ceramics through New Measurements, Processing, and Standards*, published by Wiley.

Roger Morrell is the editor of *Improved Ceramics through New Measurements, Processing, and Standards*, published by Wiley.
