DESCRIPTION

Virtual and Augmented Reality have existed for a long time but were stuck to the research world or to some large manufacturing companies. With the appearance of low-cost devices, it is expected a number of new applications, including for the general audience. This book aims at making a statement about those novelties as well as distinguishing them from the complex challenges they raise by proposing real use cases, replacing those recent evolutions through the VR/AR dynamic and by providing some perspective for the years to come.

ABOUT THE AUTHOR

B. Arnaldi, Professor, INSA de Rennes, France.

P. Guitton, Professor, University of Bordeaux, France.

G. Moreau, Professor, Ecole Centrale de Nantes, France.
