Thermo-hydrodynamic Lubrication in Hydrodynamic Bearings
Dominique Bonneau, Aurelian Fatu, Dominique Souchet

DESCRIPTION
This Series provides the necessary elements to the development and validation of numerical prediction models for hydrodynamic bearings. This book describes the thermo-hydrodynamic and the thermo-elasto-hydrodynamic lubrication. The algorithms are methodically detailed and each section is thoroughly illustrated.

ABOUT THE AUTHOR
Dominique BONNEAU, Emeritus Professor, Prime Institute, University of Poitiers, France.
Aurelian FATU, Associate Professor, Prime Institute, University of Poitiers, France.
Dominique SOUCHET, Associate Professor, Prime Institute, University of Poitiers, France.
