DESCRIPTION

Parkinson's Disease is a common neurological condition which nurses need to be equipped to manage. The aim of this book is to provide nurses with a readable and succinct text that will help them to deliver evidence-based, patient-centred nursing care for patients and their families with Parkinson's disease. This book discusses the common difficulties that are encountered in patients' day-to-day lives and gives practical advice on how the nurse can help and support patients and their families.

ABOUT THE AUTHOR

Lesley Swinn is the author of Parkinson's Disease: Theory and Practice for Nurses, published by Wiley.
