

Streamline the Research Process with

ClinMicroNow

You know that your time is valuable. You also know that research can take up a big chunk of that time. With ClinMicroNow—an all-new, online microbiology resource—you can significantly streamline the research process, leaving more time to put the findings to good use.

Here are 5 ways ClinMicroNow can revolutionize the way your organization does research.

ACCESS ANYWHERE

ClinMicroNow is a browser-based resource that can be accessed from any computer, tablet, or smartphone. Eliminate large, cumbersome text volumes and clean up the research process.

GRANULAR SEARCH

ClinMicroNow streamlines the way researchers compile results by producing tables, figures, and cases, in addition to text, so all related information is quickly found in one place.

DYNAMIC UPDATES

ClinMicroNow continuously updates its clinical microbiology content as science advances and clinical practice changes. There's no need to wait for new editions, so you can be sure to have the latest information, exactly when it's needed.

EXPANSIVE CONTENT

When performing a search in ClinMicroNow, the platform automatically analyzes content across three gold-standard microbiology publications (more than 6,000 printed text pages) to return all relevant results at once.

SEARCH TERM ASSIST

ClinMicroNow is equipped with predictive text features, helping researchers quickly insert the desired terms or phrases into the text bar.
