JACARANDA’S SOLUTIONS FOR YOUR TEACHING AND LEARNING CHALLENGES

> THEORY AND PRACTICE
Content is carefully sequenced and graded to allow students to build their knowledge and skills, catering for all ability levels.

> ENGAGEMENT
Activities such as Code puzzles, online Word Searches, Crosswords and Sudoku puzzles are available on the eBookPLUS. Also included is a series of videos entitled the Story of Mathematics that help students to place the development of mathematical ideas in context. Students are also provided with Investigations in every chapter and online projects provided in the ProjectsPLUS platform allowing for collaboration and trackable, connected, group work.

> TEACHING MATERIALS AND ASSESSMENT
Teachers are provided with detailed work programs which map the text to the NSW Australian curriculum. Two chapter tests are provided for each chapter on the eGuidePLUS. In addition, teachers can track the performance of each student in assessON which assesses students’ readiness for learning, their progress as they learn and their levels of achievement.

> KEY FEATURES
Maths Quest New South Wales Australian curriculum editions are specifically written and designed to meet the requirements and aspirations of the New South Wales Mathematics Syllabus for the Australian curriculum. The suite of resources available includes a range of engaging digital products designed to enrich the learning experience and improve learning outcomes for all students.

The suite of resources includes:
• A student text and eBookPLUS
• assessON
• SpyClass (Years 7 & 8)
• eGuidePLUS teacher resources

SpyClass is an exciting game for students in Years 7 & 8 that combines comic book–style art with problem-based learning to allow students to hone their mathematics skills in an engaging and immersive environment. By completing tasks, students assist the game’s protagonists, three teenage spies named Dan, Jesse and Toby, in fulfilling a range of missions set in exotic locations.

For different learning styles and levels
Students rate their ability (at either ‘bronze’, ‘silver’ or ‘gold’ level) and the game steers the student in the direction of challenges suited to the level they have defined. They are also able to adjust this to try easier or harder challenges throughout the game.

Linked to Maths Quest
SpyClass has been designed to align directly with Maths Quest. Each challenge links to a relevant dot point in the textbook, so if students get stuck on challenges assistance is only a click away.

In-game reward system
Prizes and stars given for each challenge completed correctly, offering the incentive of reaching the end of the adventure and building a profile with all gold stars and other prizes unlocked.

Curriculum links
All challenges are clearly mapped against the curriculum, allowing teachers to easily see exactly which skills are being tested.
