KEY FEATURES
- Updated and revised statistics, case studies and questions reflect current health guidelines and practices and the latest research data.
- Clearer explanation of concepts that often cause confusion among students.
- Changes to programs such as the World Health Organisation Agenda, VicHealth, some NHPAs and sustainable Development Goals to make them more current.
- Review of nutrition information to ensure it reflects current research.
- The most recent information on exam technique and concepts required to excel in the exam.
