Islamic Capital Markets: A Comparative Approach
Obyathulla Ismath Bacha
Taking a comparative approach to the subject, this book looks at the similarities and differences between Islamic capital markets and conventional capital markets. The book explains each particular topic from both the conventional and the Islamic perspectives, offering a full understanding of Islamic capital markets, processes, and instruments. In addition to a full explanation of Islamic products, this approach also ensures a holistic understanding of the dual markets within which Islamic capital markets operate.

Islamic Capital Markets: Theory and Practice
Noureddine Krichene
Bringing together theoretical and practical aspects of capital markets, Islamic Capital Markets offers readers a comprehensive insight into the institutions, instruments, and regulatory framework that comprise Islamic capital markets. Also exploring ideas about money, central banking, and economic growth theory and their role in Islamic capital markets, the book provides students and practitioners with essential information about the analytical tools of Islamic capital markets, serves as a guide to investing in Islamic assets, and examines risk management and the structure of Islamic financial products.

Fundamentals of Islamic Money and Capital Markets
Azmi Omar, Muhamad Abduh, Raditya Sukmana
Based on the course taught at the International Islamic University Malaysia, this is the first book on Islamic finance to focus exclusively on money and capital markets. Covering basic concepts as well as current practices in Islamic financial markets, the book features case studies from real markets. It outlines the theory of money in terms of value, supply, and demand, while explaining the Islamic capital markets in terms of classifications, types of operations, valuations of securities, Islamic unit trust, ETFs, Islamic stock broking, and much more.

Islamic Capital Markets: Products and Strategies
Kabir Hassan, Michael Mahlknecht
The standardization of Islamic financial products is currently evolving, both for Islamic derivatives & hedging methods and for Islamic bonds (Sukuk) and the process of standardization is expected to start soon also for other Islamic instruments. Islamic capital markets, and Islamic finance in general, is experiencing global rapid growth and is currently receiving more consideration also by non-Islamic investors.

Introduction to Islamic Finance
An Introduction to Islamic Finance (2nd Edition):
Theory and Practice
Zamir Iqbal, Abbas Mirakhor
This timely book offers comprehensive coverage on the fundamental theory of Islamic finance and banking, according to the core concepts of Shariah law. The authors explain clearly the distinct features of an Islamic financial system and how it compares with conventional systems. There have been a number of interesting developments in recent years and the authors discuss these fully, along with emerging issues that will influence future developments in Islamic finance.

Sukuk Securities: New Ways of Debt Contracting
Karim Ginena, Azhar Hamid
The book offers a comprehensive overview of the Sukuk market. It defines the contracts, identifies the essential design features, outlines the pricing mechanisms, and identifies the payoff and yields. It is the first book of its kind to fully introduce the market to its participants and serious students of finance and banking. Would this relay to other entrepreneurs in non-Islamic finance markets?

Understanding Islamic Finance
Muhammad Ayub
With a total population of more than a billion Muslims worldwide and an estimated industry size of $250 billion, Islamic finance is serious business for Muslims and non-Muslims alike. In recent decades, Islamic finance has emerged as one of the most important trends in the financial world, with many western banks, such as Citibank, Lloyds, and Barclays, entering, or attempting to enter, the market. Understanding Islamic Finance is the first practical introduction to Islamic finance, combining the theory and practice of Islamic finance with related economic principles.
Islamic Banking and Finance

Islamic Money and Banking: Integrating Money in Capital Theory
Iraj Toutouchian
This book examines how money, in the absence of interest (Riba) and money market can become an endogenous variable of an economic system. It further tries to integrate money in capital theory and to make monetary sector part of the real sector aiming at removing the problems that arise from separation of the two.
