Local and Regional Flaps in Head & Neck Reconstruction: A Practical Approach

RUI FERNANDES

Local and Regional Flaps in Head & Neck Reconstruction: A Practical Approach provides comprehensive, step-by-step instruction for flap raising and insetting for the head and neck region. Ideal for oral and maxillofacial surgeons, facial plastic surgeons, and head and neck surgeons, the book serves as a useful guide to planning reconstructive cases and an easily accessible reference prior to operation.

Local and Regional Flaps in Head & Neck Reconstruction is logically organized into 24 chapters, each focusing on a local or regional flap, or a special site reconstruction. Chapters focused on a particular flap will begin with a detailed description of the relevant anatomy and discuss potential applications of the flap before moving into a detailed step-by-step description of how to elevate and transfer the flap to the defect site. Potential complications will also be addressed.

Well-illustrated with more than 800 clinical photographs and with a website featuring surgical procedures, this book is an ideal reference for those new to practice and experts alike.

Key Features:
- Step-by-step guide to local and regional flap surgery, as well as special site reconstruction
- Logically organized, presenting anatomy, surgical technique, indications and complications for each flap type
- Well illustrated with more than 800 clinical photographs
- Easily accessible clinical information presented in a concise, easy-to-use format
- Includes access to a companion website with videos of surgical procedures

Intended Audience: Oral and maxillofacial surgeons, facial plastic surgeons, and the head and neck surgeons

Online ISBN: 978-1-118-93837-9

Oral Anatomy & Physiology

Fundamentals of Oral Histology and Physiology

ARTHUR R. HAND & MARION E. FRANK

A brand new text streamlining the essentials of histology and physiology into one clinically accessible textbook
- Written for pre-doctoral dental students, the book concentrates on oral structures and features, including development, teeth, tooth and jaw support, mucosal structure and function, and effectors
- A comprehensive glossary defines important terms for each chapter and brief summaries highlight significant information and concepts
- Contains high quality photomicrographs, drawings, charts, and tables for illustrating fundamental concepts
- Includes case studies, along with a companion website containing student review questions, case scenarios, figures, and tables

Print ISBN: 978-1-118-34291-6 (Paper) US$69.99 • OCT 2014 • 312PP
Online ISBN: 978-1-118-93830-0

Gerodontology

Geriatric Dentistry

PAULA K. FRIEDMAN

Provides a comprehensive, up-to-date guide to geriatric dentistry for the general dental team
- Offers a thoughtful discussion of considerations in treatment planning and decision making
- Presents case studies with critical-thinking guides to applications in clinical settings
- Provides practical guidance on common oral conditions and their clinical implications
- Elucidates financing dental care and insurance coverage
- Includes website of graphics from the book for use in lecture PowerPoints or patient handouts

Online ISBN: 978-1-118-92544-7
Subject: Orthodontics

**Ultrasonic Periodontal Debridement**
Theory and Technique  *(Previously Announced)*

MARIE D. GEORGE, TIMOTHY G. DONLEY & PHILIP M. PRESHAW

- The first textbook to focus on the fundamentally important topic of periodontal debridement
- Uses 400 clinical photographs and illustrations to demonstrate proper techniques and positioning
- Taps on clinical cases to show real-world examples of ultrasonic debridement techniques, including instrumentation around dental implants
- Summaries of key points in each chapter
- Website contains instructional resources, including key concepts, photographs and videos of instrumentation techniques

Print ISBN: 978-1-118-48687-0 (Cloth) US$124.99 • NOV 2014 • 312PP

---

Subject: Orthodontics

**Cone Beam Computed Tomography in Orthodontics**
Indications, Insights, and Innovations  *(Previously Announced)*

SUNIL KAPILA

- Provides timely, impartial, and state-of-the-art information on the indications and protocols for CBCT imaging in orthodontics, the clinical insights gained from these images, and innovations driven by these insights
- Organized to progress sequentially through specific topics, so as to build up readers’ knowledge base
- Presents case studies on clinical applications of cone beam computed tomography
- Contributors include leading radiology, orthodontics, oral surgery, and pathology experts from North America, South America, Europe, Asia and the Middle East
- Contains more than 320 colour photographs, radiographs, and illustrations
- Two bonus DVDs containing more than 15 hours of presentations from the 39th Annual Moyers Symposium and the 38th Annual International Conference on Craniofacial Research (Presymposium)

---

Subject: Orthodontics

**Orthodontically Driven Corticotomy**
Tissue Engineering to Enhance Orthodontic and Multidisciplinary Treatment

FEDERICO BRUGNAMI & ALFONSO CAIAZZO

- The first book to demonstrate how corticotomies enhance inter- and multidisciplinary treatments and the different surgical approaches available, along with pointers for selecting the most appropriate procedure to increase efficiency of orthodontic movement
- Surgical steps are demonstrated with more than 650 clinical photographs and 200 illustrations
- Written by an international team of orthodontists, periodontists, and oral surgeons
- Accompanying website contains videos demonstrating the procedures

Print ISBN: 978-1-118-84687-0 (Cloth) US$124.99 • NOV 2014 • 312PP

---

Subject: Fitness

**Weight Training For Dummies**
4th Edition

LAREINE CHABUT

- Weight Training For Dummies, 4th Edition gets you started with weight training with trusted guidance on the latest circuit and resistance training, and all-new information on the highly popular bodyweight and High Intensity Interval Training (HIIT)
- Provides directions for powerful weight training routines and advice to help you choose a weight training system that fits your lifestyle
- Includes specific approaches for seniors that are starting to use weight training to address specific health or orthopedic conditions
- This new edition also contains new coverage devoted to warm-ups and the hottest and most beneficial stretches

Print ISBN: 978-1-118-94074-7 (Paper) US$22.95 • DEC 2014 • 408PP
Online ISBN: 978-1-118-94075-4
Public Health General

Public Health Ethics
2nd Edition
STEPHEN HOLLAND

✦ A thoroughly researched and well-organised introduction to the ethical issues surrounding public health
✦ Fully updated throughout, with new sections on libertarian paternalism and harm reduction
✦ Useful for a wide variety of courses within health and social care, as it offers readers the opportunity to examine the underpinnings of healthcare policy, interventions, and systems
✦ Readable style and student-friendly structure make this book an ideal text for the undergraduates and postgraduates audience

Online ISBN: 978-0-745-68811-4

Public Health Services & Policy

Health Program Management
From Development Through Evaluation, 2nd Edition
BEAUFORT B. LONGEST JR.

✦ Provides a comprehensive approach to management throughout all stages of a health program
✦ Learn how to design, market, and lead an effective health program
✦ Become familiar with the manager's role in a quality health program
✦ Evaluate potential and existing programs for performance and capability

Print ISBN: 978-1-118-83470-1 (Paper) US$89.95 • OCT 2014 • 372PP
Online ISBN: 978-1-118-83463-3

Introduction to Health Care Services: Foundations and Challenges
BERNARD J. HEALEY & TINA MARIE EVANS

✦ Offers new insights into the most important sectors of the health care industry in the United States, from care to cost, and the forces of change with a focus on major industry players including providers, insurers and facilities
✦ Highlights challenges facing health care delivery in the future, including physician shortages, quality care, and the chronic disease epidemic
✦ Cases studies demonstrating innovations in the delivery of health care services are also presented
✦ Written by authors with decades of experience teaching and working in health care administration and management

Print ISBN: 978-1-118-40793-6 (Paper) US$89.95 • DEC 2014 • 432PP
Online ISBN: 978-1-118-45013-0

Environmental & Occupational Health

Introduction to the US Food System
Public Health, Environment, and Equity
RONI NEFF

✦ A comprehensive and engaging textbook that offers students an overview of today's US food system, focusing on its interrelationships with public health, the environment, equity, and society
✦ Presents concepts on the foundations of the US food system, crop production, food system economics, processing and packaging, consumption and overconsumption, and the environmental impacts of food
✦ Uses a classroom-friendly approach and provides evidence-based perspectives to reflect issues and ideas important to understanding the food system

Print ISBN: 978-1-118-06338-5 (Paper) US$84.95 • OCT 2014 • 576PP
Mindful Eating For Dummies
LAURA DAWN
✧ This no-nonsense, friendly guide offers essential guidance to get healthy, lose weight and avoid negative thought patterns associated with food—the mindful way
✧ Learn how to reduce overeating and discover how to choose healthy foods mindfully
✧ Whether you want to develop a healthier relationship with food to lose weight, manage a diet- or lifestyle-related illness or simply experience a better awareness and connection at mealtime, this book is your go-to guide for getting it done

Nutrition Research Methodologies
JULIE A. LOVEGROVE, LEANNE HODSON, SANGITA SHARMA & SUSAN A. LANHAM-NEW
✧ Part of the acclaimed Nutrition Society Textbook series, which addresses the emerging and rapidly advancing field of nutrition research
✧ Combines theory with practical application to address the diverse aspects of nutrition related investigations, from traditional methods to new technologies such as dietary analysis by mobile phone
✧ Covers complex topics like energy compensation, nutrient-gene interactions and metabolic adaptation in the light of ethical issues arising from the application of data for policy development
✧ Enables teachers and students to explore the core principles of nutrition and to apply these throughout their training and to foster critical thinking at all times
✧ Fully peer-reviewed to ensure completeness and clarity of content, and global relevance

Print ISBN: 978-1-118-55467-8 (Paper) US$71.95 • DEC 2014 • 368PP
Online ISBN: 978-1-118-55459-3

Clinical Paediatric Dietetics
4th Edition (Previously Announced)
VANESSA SHAW
✧ A comprehensive guide to the nutritional management of disease in paediatric patients, with key information on a range of metabolic disorders
✧ An indispensable guide for all those involved in the nutritional treatment of children
✧ Edited by the leading expert at Great Ormond Street Hospital and officially supported by the British Dietetic Association
✧ Written by dietitians for dietitians

Print ISBN: 978-0-470-65998-4 (Cloth) US$125.00 • OCT 2014 • 824PP

Occupational Therapy in Psychiatry and Mental Health
5th Edition (Previously Announced)
ROSEMARY CROUCH & VIVYAN ALERS
✧ An ideal resource for students in occupational therapy, practitioners and allied health professionals seeking an up-to-date, globally relevant resource on psychiatry and mental health care
✧ Updated to include case studies throughout to illustrate application of theory to practice and with new material on emerging areas of practice
✧ Comprehensive information on the assessment and treatment for children, adolescents and adults, covering key mental health conditions

Print ISBN: 978-1-118-62422-7 (Paper) US$60.00 • SEP 2014 • 512PP
Online ISBN: 978-1-118-62419-7
Children’s Speech Sound Disorders

2nd Edition
CAROLINE BOWEN

✦ Provides concise, easy-to-understand explanations of key aspects of the classification, assessment, diagnosis and treatment of articulation disorders, phonological disorders and childhood apraxia of speech
✦ Meticulously updated and expanded with new material on Apps, assessing and treating two-year-olds, children acquiring languages other than English and working with multilingual children, communities of practice in communication sciences and disorders, distinguishing delay from disorder, linguistic sciences, counselling and managing difficult behaviour, and the neural underpinnings of and new approaches to treating CAS
✦ Includes case vignettes and real-world examples to place topics in context and expert essays by sixty distinguished contributors
✦ A host of instructor resources available on the companion website: www.wiley.com/go/bowen/speechlanguagetherapy and the author’s website: speech-language-therapy.com

Achieving High Quality Care

Practical Experience from NICE
GILLIAN LENG, VAL MOORE & SASHA ABRAHAM

✦ The only title from the National Institute for Health and Care Excellence (NICE) that provides practical guidance on implementing guidance and improving care
✦ A practical review of the evidence-based approach to improving health care services, implementing guidelines and proving high quality care for patients
✦ Includes ‘examples in practice’ and key learning points
✦ Summaries of the evidence-base and relevant examples of change management and best practice

Medical Statistics & Epidemiology

Medical Statistics

JENNIFER PEAT & BELINDA BARTON

✦ A practical guide on conducting statistical research and interpreting statistics in the context of how the participants were recruited, how the study was designed, what types of variables were used, what effect size was found, and what the P values mean
✦ Guides researchers through the process of selecting the correct statistics and show how to best report results for presentation and publication
✦ Clear and concise explanations with plenty of examples and tabulated explanations based on the authors’ popular medical statistics courses
✦ This new edition includes a new chapter on repeated measures and mixed models and a helpful glossary of terms provides an easy reference that applies to all chapters

Medical Statistics from Scratch

An Introduction for Health Professionals, 3rd Edition
DAVID BOWERS

✦ Provides a practical foundation for medical students and health professionals on medical statistics
✦ Keeps the level of mathematics to a minimum and clearly illustrates statistical concepts and practice with real world examples and cases drawn from current medical literature
✦ Fully revised and updated with new material on missing data, random allocation and concealment of data, intra-class correlation coefficient, effect modification and interaction, diagnostic testing and the ROC curve and standardization
A Concise Guide to Observational Studies in Healthcare

ALLAN HACKSHAW

- First concise guide on how to design, set up, conduct, analyze and report on a range of different types of observational studies
- Companion to the popular Concise Guide to Clinical Trials
- An area of research that spans simple studies to national level health policy
- Written by a leading researcher and experienced author

Print ISBN: 978-0-470-65867-3 (Paper) US$47.95 • OCT 2014 • 320PP

Immunology

Immunology
A Short Course, 7th Edition
RICHARD COICO & GEOFFREY SUNSHINE

- Fully revised and updated edition of the best-selling course and review book for undergraduate and medical students
- Introduces the critical topics of modern immunology in a clear, succinct and comprehensive fashion without burdening the reader with excessive data or theoretical discussions
- Provides a balanced between classical and contemporary approaches and basic and clinical aspects
- Each chapter is divided into short, self-contained units that address key topics illustrated by uniformly drawn, fully coloured illustrations and photographs
- Includes a plethora of student support with end of chapter summaries and review questions

Print ISBN: 978-1-118-39691-9 (Paper) US$70.95 • DEC 2014 • 448PP

Cardiovascular Disease

ABC of Hypertension

GARETH BEEVERS, GREGORY Y. H. LIP & EOIN O’BRIEN

- A long established practical guide to the investigation, treatment and management of hypertensive patients
- Provides practical guidance on the measurement of blood pressure and the investigation and management of hypertensive patients
- Explains new developments in measurement and automated measurement of blood pressure
- Updates coverage on treatment of the elderly and explains the implications of recent trials
- Incorporates current British Hypertension Society and NICE guidelines

Print ISBN: 978-0-470-65962-5 (Paper) US$42.95 • NOV 2014 • 136PP
Online ISBN: 978-1-118-59254-0

Cardiovascular Imaging

Dynamic Cardiac and Thoracic Imaging

P. CLARYSSE

- This book presents current and emerging methods developed for the acquisition of images of moving organs in the five main medical imaging modalities: conventional X-rays, computed tomography (CT), magnetic resonance imaging (MRI), nuclear imaging and ultrasound
- The availability of dynamic image sequences allows for the qualitative and quantitative assessment of an organ’s dynamics, which is often linked to pathologies

Print ISBN: 978-0-470-65962-5 (Cloth) US$98.95 • OCT 2014 • 304PP
**Electrophysiology**

**ECGs for Beginners**  
**ANTONI BAYS DE LUNA** (Previously Announced)

- Provides cardiology and electrophysiology trainees with an easy to follow, step-by-step guide to the topic, enabling them to understand and interpret ECG readings to best manage their patients
- Covers all types of arrhythmias, including morphological abnormalities like atrial and ventricular problems
- Normal ECG readings are presented alongside abnormal readings, to best demonstrate how and why abnormalities occur
- Packed with over 250 high-quality ECG tracings and management algorithms, with key points throughout
- Every chapter contains self-assessment questions, allowing the reader to test themselves on what they’ve just learnt
- Written by one of the world’s most respected electrophysiologists with over 40 years of experience training clinicians

Online ISBN: 978-1-118-82132-9

**Implantable Device Therapy**

**Bradycardia**  
**TOM KENNY**

- Perfect introductory guide to the topic, assuming little baseline knowledge and highly suitable for residents, fellows, EP nurses, general clinical cardiologists, EP fellows and industry professionals
- Practical, accessible, highly illustrated approach to make learning easier
- Provides an overview of the algorithms and devices offered by the world’s five pacemaker manufacturers
- Offers clinicians learning objectives, test questions and essential points in bulleted lists
- Written by one of the best-known and well-respected educators in EP

Online ISBN: 978-1-118-67063-7

**Interventional Cardiology**

**Urgent Interventional Therapies**  
**NICHOLAS KIPSHIDZE, JAWED FAREED, ROBERT T. ROSEN & PATRICK SERRUYS**

- This book illustrates the differences between urgent interventions and interventions performed to manage chronic conditions
- Chapters follow a consistent structure from background through indications, evidence review, device description, procedural techniques to follow-up care and complications
- More than 40 high definition videos, hosted on companion website www.wiley.com/go/kipshidze/interventionaltherapies
- A truly visual learning tool complete with tips and tricks

Print ISBN: 978-0-470-67202-0 (Cloth) US$235.00 • NOV 2014 • 632PP
Online ISBN: 978-1-118-50449-9

**Vascular Medicine**

**ABC of Arterial and Venous Disease**  
**3rd Edition**  
**TIM ENGLAND & AKHTAR NASIM**

- A practical guide to the diagnosis and treatment of arterial and venous disease for the non-specialist, focusing on the modern day management of patients
- Explains the different interventions for arterial and venous disease
- Covers the core knowledge on therapy, management and diagnosis
- Includes information on new treatments and therapies, antithrombotic therapy, and non-invasive techniques
- Highly illustrated with a range of CT and MR images

Print ISBN: 978-1-118-74066-2 (Paper) US$42.95 • OCT 2014 • 120PP
Online ISBN: 978-1-118-74190-0
Dermatology

Acne
Causes and Practical Management
F. WILLIAM DANBY
✦ Full coverage of all acne presentations – acne vulgaris, acne rosacea and acne inversa
✦ Provides an integrated view of the causes of the varied and overlapping acnes
✦ Includes preventive, novel and curative approaches to treatment
✦ Covers the medical, surgical, dietary and integrated components of management
✦ Highly practical focus on treatment, based on emerging pathogenetic concept
✦ In full colour throughout, with over 200 excellent clinical images

Psoriasis
Diagnosis and Management
WOLFRAM STERRY, ROBERT SABAT & SANDRA PHILIPP
✦ Practical guide to the diagnosis and treatment of psoriasis to help readers plot a logical path through a complex maze of possibilities
✦ Provides a solid basis in the clinical features and etiology of the disease, with emphasize that this is not a simple disease for which one patient’s experience can be extrapolated to another
✦ Serves as the springboard for discussing the range of management options for both psoriatic symptoms and comorbid conditions
✦ Algorithms of diagnostic procedures and management protocols are included where possible, to provide helpful tools for daily practical care of patients

Cosmetic / Esthetic Dermatology
Fat Removal
Invasive and Non-invasive Body Contouring
MATHEW AVRAM
✦ Offers a practical approach to implementing fat removal for cosmetic dermatologists, plastic surgeons, aesthetic medical practitioners
✦ Includes both invasive and non-invasive techniques
✦ Written by one of the world’s leading dermatologists

Emergency Medicine & Trauma
Hazardous Incident Medical Management and Support
The Practical Approach
ADVANCED LIFE SUPPORT GROUP
✦ An Authoritative course book dealing with emergency special incident management
✦ Practical, easy to follow guidance on the team response
✦ Alerts to optimum safety and protection measures
✦ Includes guides to emergency services and hospital staff regarding the identification of hazards
✦ Details the lingering effects of trauma in comprehensive appendices; including the psychological impacts, epidemiological investigations and further reading on the subject
✦ Outlines medical support roles and protocols for hazardous situations
✦ Highly relevant for A and E staff, pre-hospital staff and hospital managers
Mount Sinai Expert Guides: Gastroenterology

BRUCE E. SANDS

- The Mount Sinai Expert Guides provide quick access, point-of-care specialist clinical information for the busy physician, with strong emphasis on treatment algorithms, text boxes and short bulleted text to summarize all aspects of each disease
- Covers the major GI diseases/symptoms in one highly clinical, convenient book – perfect for residents and fellows in training
- Companion website contains video clips, case studies, MCQs for self-assessment, patient advice, and ICD codes
- Outstanding editor team, led by Bruce Sands, who heads up the division of gastroenterology at Mount Sinai

Print ISBN: 978-1-118-51996-7 (Paper) US$84.95 • DEC 2014 • 584PP

General & Internal Medicine

The Hands-on Guide to the Foundation Programme

5th Edition
ANNA DONALD, MIKE STEIN, CIARAN SCOTT HILL & SELINA CHAVDA

- A career-focused, practical guide to assist the junior doctor in preparing for the emotional and physical rigour of the Foundation Programme
- Features hints, tips and practical advice on various aspects of the course, from self-care to prescribing
- Provides invaluable support and guidance, with up-to-date information on postgraduate training and recruitment, practical management skills, and career pathways
- Helps to build confidence, enabling the newly-graduated medical student to hit the ground running
- Features newly expanded sections on A&E, psychiatric evaluation and capacity and situational judgement

Print ISBN: 978-1-118-76746-7 (Paper) US$44.95 • OCT 2014 • 296PP
Online ISBN: 978-1-118-76726-9

Clinical Skills

Simulated Patient Methodology

Theory, Evidence and Practice
DEBRA NESTEL & MARGARET BEARMAN

- A timely project that connects theory and evidence with practice to ensure maximum benefit for those involved in SP programmes
- Provides inter-disciplinary overview of the field, relevant to all medical, nursing and allied health educators
- Considers practical issues such as recruiting and training simulated patients, and financial planning of SP programmes
- Features case studies illustrating theory as applied to practice, which are drawn across health professions and countries, to ensure relevance to localised contexts
- Includes perspectives from simulated patients and medical students and junior doctors
- A unique resource summarising the theoretical and practical basis of all human-based simulation methodologies

Print ISBN: 978-1-118-76100-7 (Paper) US$69.98 • DEC 2014 • 160PP
Online ISBN: 978-1-118-76067-3

Intensive / Critical Care

ABC of Transfer and Retrieval Medicine

ADAM LOW & JONATHAN HULME

- A practical guide to help all health care professionals ensure the safe transfer and best care of critically ill patients
- Mapped against the requirements of transfer medicine courses, including the Diploma of Retrieval and Transfer Medicine (DRTM)
- Fully illustrated to demonstrate the correct use of equipment and the performance of procedures
- Includes sample checklists and step by step procedural guidelines
- Written by a multidisciplinary editor and contributor team

Online ISBN: 978-1-118-71963-3
Geriatric Medicine

Substance Use and Older People
ILANA B. CROME, LI-TZY WU, RAHUL (TONY) RAO & PETER CROME

- The most up-to-date book to address substance use and misuse of prescription drugs in the older patient population
- Covers social, biological, psychological and medical perspectives
- Looks at treatment options and outcomes
- Includes 'Key Points' boxes, Tips & Tricks, Questions and Answers
- Edited and written by experts in geriatric medicine, psychiatry and addiction to provide a valuable resource for practitioners in these three fields

Print ISBN: 978-1-119-97538-0 (Cloth) US$104.95 • SEP 2014 • 424PP

Hematology

Morphology of Blood Disorders
2nd Edition
GIUSEPPE D’ONOFRIO, GINA ZINI & BARBARA J. BAIN

- An outstanding and well-illustrated atlas with over 800 high quality four colour digital images covering the whole spectrum of blood and bone marrow morphology, with particular emphasis on malignant haematology
- Explores the major topics of haematological pathology, blending classical teaching with up-to-date WHO classification and terminology
- Originally written in Italian by two world leaders in the field, the book has been expertly translated by renowned haematologist and teacher, Barbara Bain
- Designed to be a one-stop reference for anyone with an interest in blood cell morphology

Print ISBN: 978-1-118-44260-9 (Cloth) US$207.95 • NOV 2014 • 784PP

Infectious Disease

Concepts and Methods in Infectious Disease Surveillance
NKUCHIA M. M’IKANATHA & JOHN ISKANDER

- Written by leaders with vast hands-on experience in conducting surveillance and teaching applied public health
- Covers major topics at an introductory to intermediate level and serves as an excellent teaching resource for instructors in graduate level courses in public health, human and veterinary medicine, and in undergraduate programs in public-health-oriented disciplines
- Covers surveillance for infectious diseases by program area, with chapters dedicated to “sexually transmitted diseases” and “food and water borne diseases”
- Practical considerations in use of new technologies with specific chapters on electronic laboratory reporting of data and use of mobile device applications to conduct surveillance
- Reinforces concepts of infectious disease surveillance using actual examples encountered in surveillance programs

Print ISBN: 978-0-470-65939-7 (Paper) US$92.95 • NOV 2014 • 288PP

Vaccinology

An Essential Guide
GREGG MILLIGAN & ALAN BARRETT

- Covers the safety, regulatory, ethical, and economic issues that drive vaccine development and trials in the global context
- Discusses vaccine delivery strategies, novel vaccine platforms (including experimental vaccines and pathogens), antigen development and selection, and vaccine modelling, and includes the development of vaccines against emerging pathogens and agents of bioterror
- Includes sections on veterinary vaccines and associated regulatory processes
- Provides current best practices in vaccinology from a team of world experts in vaccine development and research
- Designed for undergraduate and graduate microbiologists and immunologists, and for residents, fellows and trainees of infectious disease and serves as an ideal companion to the reference Vaccinology: Principles and Practice

Print ISBN: 978-0-470-65616-7 (Paper) US$130.00 • NOV 2014 • 384PP
Microbiology

Microbiology For Dummies
JENNIFER STEARNS & MICHAEL SURETTE

- This book is your guide to understanding the fundamentals of the enormously-encompassing field of microbiology
- Designed as an introductory and reference text, the topics include prokaryotic and eukaryotic cells, the basics of cell function and metabolism, pathogenic and symbiotic relationships and the study of mechanisms that keep different organisms active and alive
- A must-have course companion for any student – degree-seeking or elective – enrolled in an undergraduate Microbiology course

Print ISBN: 978-1-118-87118-8 (Paper) US$22.95 • OCT 2014 • 384PP
Online ISBN: 978-1-118-87126-3

Neurology

Peripheral Nerve Disorders
Pathology and Genetics
JEAN-MICHEL VALLAT & JOACHIM WEIS

- A definitive, clinically oriented guide to the pathology of peripheral nerve disorders
- Clinical, disease-oriented approach to the neuropathology of peripheral nerve disorders
- Fuses classical and contemporary investigative approaches
- Includes genetic and molecular biological techniques
- Highly illustrated and endorsed by the International Society of Neuropathology

Print ISBN: 978-1-118-61843-1 (Cloth) US$199.95 • OCT 2014 • 376PP
Online ISBN: 978-1-118-61839-4

Traumatic Brain Injury
PIETER VOS & RAMON DIAZ-ARRASTIA

- Long-term survival from traumatic brain injury is greatly increased if management guidelines are properly followed. This book provides guidance to neurologists throughout the patient journey
- Takes a practical approach to the diagnosis and management of patients who suffer traumatic pain injury
- Designed to follow the pathway of care, from pre-hospital management through the emergency ward, to rehabilitation and finally re-emergence in the community

Print ISBN: 978-1-444-33770-9 (Cloth) US$119.95 • DEC 2014 • 264PP
Online ISBN: 978-1-118-65630-3

Epilepsy

Epilepsy and the Interictal State
Co-Morbidities and Quality of Life
ERIK ST LOUIS, DAVID M. FICKER & TERENCE J. O'BRIEN

- This book reflects the real-life clinical challenges faced by epilepsy patients and their physicians between the seizures
- Patient-oriented and focuses on quality of life issues
- Practical, evidence-based approach
- Adopts a standard format for each chapter
- International editorship and authorship

Gynecology

Female Urinary Incontinence
NARENDER BHATIA

- Part of the Gynecology in Practice series with the aim of providing clinicians with a ‘in the office’ or ‘at the bedside’ guide to effective patient care for gynecologists
- Provides practical guidance on the use of algorithms and guidelines where they are appropriate
- Uses ‘Tips and Tricks’ boxes to help clinicians improve patient outcomes
- ‘Caution’ warning boxes used for alerting readers to problems and pitfalls
- ‘Science Revisited’ quick reminders used for providing basic science principles to aid with understanding

Print ISBN: 978-0-470-67386-7 (Paper) US$82.95 • JAN 2015 • 256PP

Uncommon Gynecologic Cancers
MARCELA DEL CARMEN, JOHN O. SCHORGE & ROBERT H. YOUNG

- Rare gynecological cancers kill all too commonly
- The go-to resource used for identifying effective treatment strategies for major gynecological cancers
- Uses straight forward summaries of pathophysiologic processes to help clinicians decide on investigations to improve diagnostic accuracy
- Practical and systematic orientation – what to do and when to benefit patient well being,
- Covers cancers of the ovaries, uterus, vulva, vagina and cervix
- Multidisciplinary, internationally famous editorial team

Print ISBN: 978-1-118-65535-1 (Cloth) US$199.95 • DEC 2014 • 296PP
Online ISBN: 978-1-118-65531-3

Oncology & Radiotherapy

Cancer Consult
Expertise for Clinical Practice
SYED A ABUT ALI & MAURIE MARKMAN MD

- A robust, engaging and fully referenced title covering the entire specialty of oncology, providing oncologists with an immediately applicable compendium of vital information on common and uncommon cancers
- Adopts a case based, question-and-answer format for enhancing the multidisciplinary care of patients
- Features strong, practical, carefully prepared contributions from well-known medical, surgical, and radiation oncologists and hematologists
- Embedded cross-referencing to journal articles and key books in the fields of medical, surgical, and radiation oncology as well as hematology
- All pertinent evidence based and patient centered data will be included

Online ISBN: 978-1-118-58916-8

Medical Oncology

Cancer and its Management
7th Edition
DANIEL HOCHHAUSER

- A highly-regarded revised title devised as an introductory and reference text for diagnosing, staging and treating tumors
- Provides a thorough yet reasonably brief account of the entire field of oncology, focused on the latest principles, techniques and therapies in cancer management
- Emphasises the importance of multidisciplinary teamwork in the care of cancer patients
- Highlights frequent dilemmas and difficulties encountered during cancer management
- Consistent presentation throughout with brand new four-colour design and figures

Online ISBN: 978-1-118-46870-8
Neonatal Formulary

Drug Use in Pregnancy and the First Year of Life
SEAN B. AINSWORTH

✦ Provides comprehensive guidance on the safe usage of all the drugs prescribed during pregnancy and commonly given to babies during labour, delivery, and the first year of life
✦ New information on HIV drugs, including BHIVA guidance for prevention of mother to baby HIV transmission
✦ Practical and ease of access for the clinical in search for a specific question
✦ More than ‘just a formulary’, it provides a greater understanding of the pharmacology and pharmacokinetics involved, ensuring that readers will become better and safer prescribers
✦ Warning boxes with indication, contraindication and dose
✦ Links to Cochrane reviews
✦ New page design with larger fonts and modular content with more bullet points and tables for easy reference
✦ Companion website features updates related to specific drugs and dosing

Prescribing at a Glance

SARAH ROSS

✦ Addresses the most common uses of prescription drugs, and follows progress from dose calculation, administration, to monitoring the effects in the treatments of major presenting problems
✦ Simple, step-by-step instructions and clear, easy-to-remember guidelines
✦ Features detailed and high-quality colour illustrations throughout
✦ Includes examples of common prescribing errors, practice prescriptions and calculations
✦ Follows WHO Good Prescribing Guidelines and corresponds to the core curriculum of the British Pharmacological Society
✦ Includes a companion website featuring interactive MCQs: www.ataglanceseries.com/prescribing

Statistical Thinking for Non-Statisticians in Drug Regulation

2nd Edition
RICHARD KAY

✦ A guide to understanding statistical methodology, data and results within drug development and clinical trials for anyone working in the pharmaceutical and medical device industries
✦ Assists pharmaceutical personnel in communicating effectively with statisticians using statistical language
✦ Improves the ability to read and understand statistical methodology in papers and reports and to critically appraise that methodology
✦ Four new chapters cover Bayesian statistics, adaptive designs, observational studies and methods for safety analysis and monitoring

ABC of Anxiety and Depression

LINDA GASK & CAROLYN CHEW-GRAHAM

✦ A practical guide to the assessment, treatment and management of patients with depression and anxiety as they commonly present in primary care
✦ Case-based approach to diagnosis and management of both depression and anxiety within primary care
✦ Includes evidence-based practice and relevant NICE and SIGN guidelines
✦ An excellent reference for GPs and family physicians working with patients with depression and anxiety disorders in a primary care setting
Early Intervention in Psychiatry

EI of nearly everything for better mental health

PETER BYRNE & ALAN ROSEN

This new title describes best practices for early intervention to all types of psychiatric disorders
Comprehensively addresses all common psychiatric disorders across all age groups
Evidence-based, with an emphasis on outcomes and outputs
International coverage, with best practices from Australasia, Europe and North America
Practical approach, with the authors answering readers’ questions about how EI service configurations will look and which clinicians should intervene

Print ISBN: 978-0-470-68342-2 (Cloth) US$94.95 • NOV 2014 • 416PP
Online ISBN: 978-1-118-38774-0

Psychiatry, Set

4th Edition (Previously Announced)

ALLAN TASMAN, JERALD KAY, JEFFREY A. LIEBERMAN, MICHAEL B. FIRST & MICHELLE RIBA

Truly comprehensive exposition of the specialty of psychiatry with over 400 contributors
Coverage from psychoanalysis to pharmacology and brain imaging, including family relations, cultural influence and change, epidemiology, genetics and behavioral medicine
Numerous figures and tables that facilitate learning and comprehension appear throughout the text
Diagnostic and treatment decision trees to help both the novice and experienced reader
Updated with new developments in the field since the last edition was published in 2008
Volumes available for sale individually

Print ISBN: 978-1-118-84547-9 (Cloth) US$479.95 • NOV 2014 • 3000PP
Online ISBN: 978-1-118-75335-4

Troublesome Disguises

Managing Challenging Disorders in Psychiatry, 2nd Edition

DINESH BHUGRA & SUSHAM GUPTA

Examines psychiatric conditions which are not necessarily uncommon, rare or exotic but are challenging for the clinician who may struggle to reach a diagnosis and to set up management strategies
Raises awareness of uncommon neuropsychiatric disorders, then discusses what to do once such a diagnosis has been made
Focuses on management issues, providing practical advice for dealing with complex cases
This edition includes advice on the treatment of more common but still challenging disorders
An excellent reference for psychiatrists, psychiatric trainees and neurologists

Print ISBN: 978-1-119-99314-8 (Cloth) US$95.95 • DEC 2014 • 320PP
Online ISBN: 978-1-119-79957-4

Radiology & Imaging

Anatomy in Diagnostic Imaging

3rd Edition

PETER FLECKENSTEIN & JØRGEN TRANUM-JENSEN

The unrivalled atlas linking anatomy and modern diagnostic imaging
Covers the entire human body and employs all the imaging modalities used in clinical practice; x-ray, CT, MR, PET, ultrasound and scintigraphy
Over 900 images, of which 250 are new
Relevant for medical students, doctors, radiologists, radiographers and other medical personnel working with diagnostic imaging

Print ISBN: 978-1-405-13991-5 (Paper) US$95.00 • SEP 2014 • 520PP
Handbook of MRI Technique
4th Edition
CATHERINE WESTBROOK
✦ The ideal clinical reference text for users of all types of MRI systems
✦ Written by an international team of technologists from the USA, UK and Europe
✦ The ideal support for radiographers new to MRI and for regular users looking for information on alternative techniques and protocol modifications
✦ Updated edition includes key points throughout for quick reference
✦ Companion website at wiley.com/go/westbrook/mritechnique with self-assessment and image flashcards

Print ISBN: 978-1-118-66162-8 (Paper) US$75.00 • OCT 2014 • 376PP
Online ISBN: 978-1-118-66157-4

Respiratory Medicine

Interpreting Lung Function Tests
A Step-by Step Guide
BRUCE THOMPSON, BRIGITTE BORG & ROBYN O'HEHIR
✦ A practical, “how-to” training manual that provides readers with the necessary skills to interpret lung function test results and for report writing
✦ Utilizes the many references available on interpretation of lung function and provides a teaching/reference tool for report writing of lung function results routinely performed in clinical practice
✦ Provides examples of results and written reports (with commentary where necessary as further explanation)
✦ Focuses primarily on tests performed as part of routine clinical testing: spirometry, static lung volumes, gas transfer, bronchial provocation tests, and maximal respiratory pressures

Online ISBN: 978-1-118-40544-4

Sports Science

Handbook of Sports Medicine and Science, The Female Athlete
MARGO MOUNTJOY
✦ This new International Olympic Committee (IOC) handbook covers the science, medicine and psycho-social aspects of females in sports at all levels of competition
✦ Each chapter focuses on the specific issues that female athletes confront both on and off the field, such as bone health, nutritional recommendations, exercise/competition during menstruation and pregnancy, and much more
✦ Draws upon the experience of an international team of expert contributors
✦ An excellent text and reference material for undergraduate and graduate courses, as well as a valuable resource for medical doctors, therapists, nutritionists, sports scientists, coaches, personal trainers and athletes

Print ISBN: 978-1-118-86219-3 (Paper) US$64.95 • NOV 2014 • 160PP
Online ISBN: 978-1-118-86201-8

General Surgery

Jones' Clinical Paediatric Surgery
7th Edition
JOHN M. HUTSON
✦ Uses a systematic approach to treating childhood diseases that need surgical treatment
✦ Uses case vignettes throughout to provide a practical grounding
✦ Substantially revised to reflect contemporary paediatric surgery with fully coloured photographs throughout
✦ Written by experts from the world renowned Royal Children’s Hospital, Melbourne, Australia

Key Notes on Plastic Surgery
2nd Edition  (Previously Announced)
ADRIAN RICHARDS & HYWEL DAFYDD

- This is the updated edition of the concise but comprehensive handbook that should be in the pocket of every plastic surgeon
- Presents the latest developments within the field, particularly regarding the treatment of burns, hand trauma, and ethics
- Follows the current FRSC curriculum, making it ideal for surgical trainees

Print ISBN: 978-1-444-33434-0 (Paper) US$74.95  •  NOV 2014  •  648PP
Online ISBN: 978-1-118-75686-7

Transplantation

Textbook of Organ Transplantation Set  ✤ Lead Title
ALLAN D. KIRK, STUART J. KNECHTLE, CHRISTIAN P. LARSEN, JOREN C. MADSEN, THOMAS C. PEARSON & STEVEN A. WEBBER

- A complete and comprehensive overview of modern transplantation in all its complexity, from basic science to gold-standard surgical techniques, post-operative care to likely outcomes for transplant program administration, bioethics and health policy
- Beautifully produced in full colour throughout, with over 600 high-quality illustrations
- Provides a solid overview of what transplant clinicians/surgeons do, and with topics presented in an order that a clinician will encounter them
- Presents a holistic look at transplantation, foregrounding the interrelationships between transplant team members and non-surgical clinicians in the subspecialties relevant to pre- and post-operative patient care, such as gastroenterology, nephrology, and cardiology
- Offers a focused look at pediatric transplantation, and identifies the ways in which it significantly differs from transplantation in adults
- Includes coverage of essential non-clinical topics such as transplant program management and administration; research design and data collection; transplant policy and bioethical issues

Print ISBN: 978-1-118-87014-3 (Cloth) US$800.00  •  AUG 2014  •  1880PP
Online ISBN: 978-1-118-87343-4

Urology

Male Lower Urinary Tract Symptoms and Benign Prostatic Hyperplasia
STEVEN A. KAPLAN & KEVIN T. MCVARY  (Previously Announced)

- A practical, highly clinical guide to the variety of different symptoms and problems concerning the male lower urinary tract, including benign prostatic hyperplasia, one of the conditions that urologists most regularly encounter
- Evidence-based throughout and written by the world’s leading experts in the topic, it comprehensively reviews the very latest in diagnostics and imaging, patient phenotyping, genetic studies, medical and surgical therapies, and lifestyle management to help clinicians best manage their patients
- Includes cutting-edge chapters on the very latest new therapies and clinical trials for male lower urinary tract problems
- Fully covers both medical and surgical management, as well as diagnosis
- Contains detailed management algorithms for each treatment therapy, with key points and potential pitfalls to ensure easy to follow, clear clinical guidance
- Includes the latest AUA/EAU guidelines

Print ISBN: 978-1-118-43799-5 (Cloth) US$111.95  •  OCT 2014  •  240PP
Online ISBN: 978-1-118-43788-9
Critical Care Medicine at a Glance
3rd Edition (Previously Announced)
RICHARD M. LEACH

✦ An accessible introduction and revision text for junior clinicians, nurses and dieticians
✦ Fully revised and updated to increase coverage of a rapidly expanding area of medicine
✦ Provides a simple and straightforward, yet rapid introduction to the care of the acutely ill
✦ Features new ‘Pearls of Wisdom’ to aid learning and understanding
✦ Includes an appendix of top nutrition tips from the Royal College of Physicians
✦ Increased coverage on neurological emergencies, acute and abdominal emergencies, arrhythmias, imaging and fluid management

Print ISBN: 978-1-118-47455-6 (Paper) US$31.95 • OCT 2014 • 216PP

How to Pass the CSA Exam
for GP Trainees and MRCGP CSA Candidates
IMTIAZ AHMAD, RAJ NAIR, MARTIN BLOCK & GRAHAM EASTON

✦ A unique blend of high-quality videos and accompanying study guide to help GP trainees prepare for their Clinical Skills Assessment (CSA) - an essential component of the MRCGP exam
✦ The DVD features 3 hours of consultations drawn from real life experience, with step-by-step explanations and points highlighted for examination, and features filmed panel discussion and feedback
✦ The accompanying guidebook mirrors the video content, with explanatory text, advice on how the exam works and how role players are briefed, ‘CSA Plus’ resources on broader issues encountered in everyday general practice, and links to relevant guidelines, e-learning modules, and further resources
✦ Serves as a thorough and systematic companion to examination preparation and helping readers optimise their skills and prepare for early practice life

Print ISBN: 978-1-118-65243-5 (Paper) US$65.00 • OCT 2014 • 592PP

Medical Nutrition and Disease
A Case-Based Approach, 5th Edition (Previously Announced)
LISA HARK, DARWIN DEEN & GAIL MORRISON

✦ New edition of this best-selling text, now fully updated with the latest evidence-base, five brand new cases, and new perspectives from the inter-professional team
✦ Presents a practical guide to the role of nutrition in disease, covering many of the scenarios a clinician faces in everyday clinical practice
✦ Teaches health care professionals how to diagnose and manage nutritional problems, integrate nutrition into their clinical practice, and answer patients’ most common questions
✦ Features contributions from nationally recognized nutritionists and physicians who teach nutrition in medical schools and on residency programs
✦ Includes ‘learning objectives’ boxes, MCQs and further references to help prepare for courses and certifying exams, and earn continuing education (CE) credits for the ADA
✦ The ideal companion to nutrition programs in medical and dietetic departments, as well as a companion for clinicians seeking professional development

Print ISBN: 978-1-118-47101-2 (Paper) US$120.00 • OCT 2014 • 224PP

Nursing General

Adult Nursing at a Glance
ANDRE LE MAY

Everything you need to know about Adult Nursing...at a Glance!
✦ Far more accessible and less intimidating than other adult nursing textbooks on the market
✦ Pulls together all relevant content that a pre-registration nursing student will need, with no unnecessary extras
✦ The at a Glance approach incorporates both images and text, appealing to both visual and non-visual learners
✦ Provides pre-registration adult nursing students with the perfect refresher/revision guide to their course

Print ISBN: 978-1-118-47455-6 (Paper) US$31.95 • OCT 2014 • 216PP
Online ISBN: 978-1-118-47450-1
Nursing Practice
Knowledge and Care
IAN PEATE, KAREN WILD & MURALITHARAN NAIR
✦ A comprehensive, student-friendly resource to accompany the student throughout the entire pre-registration programme
✦ Explores both the theory and the practice of nursing care
✦ Focuses predominantly on adult nursing, but with boxed examples of other fields of nursing care
✦ Essential skills clusters woven throughout as themes
✦ Over 350 full-colour high quality illustrations throughout
✦ Includes tips, hints, and advice from real nurses, real students, service users, and other members of the multi-disciplinary team, bringing the subject to life
✦ Supported by an online site featuring both lecturer and student resources at: www.wileynursingpractice.com

Online ISBN: 978-1-118-49674-9

Introductions to Nursing

Communication Skills for Nurses
CLAIRE BOYD & JANET DARE (Previously Announced)
✦ A handy, portable, and fun introduction to the key communication and interpersonal skills needed during placement and as a registered nurse
✦ Developed by students, for students and presented in clear, straightforward and jargon-free style
✦ Explains how to use interpersonal skills effectively, communicate with patients with specific conditions, and handle both criticisms and compliments
✦ Features tips and advice from nursing students, with examples and questions based on real life nursing and healthcare situations

Online ISBN: 978-1-118-76747-4

Student Survival Skills
Study Skills for Nurses (Previously Announced)
CLAIRE BOYD
✦ A concise, pocket-sized companion on study skills, aimed at student nurses beginning their course, looking for a refresher on key skills, or returning for further studies
✦ By students for students: tips, advice and words of wisdom from real-life students included throughout
✦ Ties in with the NMC standards for pre-registration education and the Essential Skills Clusters
✦ Includes activities throughout to test readers’ understanding

Print ISBN: 978-1-118-65743-0 (Paper) US$15.99 • SEP 2014 • 256PP
Online ISBN: 978-1-118-65739-3

Nursing Children & Young People

Children and Young People's Nursing at a Glance
ALAN GLASPER, JIM RICHARDSON & JANE COAD
✦ Breaks down complex aspects of child health care in an accessible and un-intimidating way
✦ The perfect revision and companion for study and revision for pre-registration children’s nursing students
✦ Linked closely with the NMC standards for pre-registration nursing education, and the essential skills clusters framework
✦ Highly visual colour presentation, with approximately 130 illustrations
✦ Includes boxes, summary boxes, key points and recommendations for practice to improve the learning experience
✦ Supported by a companion website featuring over 500 interactive multiple choice questions: www. ataglanceseries.com/nursing/children

Online ISBN: 978-1-118-51617-1

Nursing Older People

The Care Home Handbook

CLIVE BOWMAN, GRAHAM MULLEY, MICHAL BOYD & SARAH STOWE

- A practical and succinct aide-memoire specifically tailored for care homes
- Promotes best practice that champion patient-centred nursing care
- Focuses on all aspects of care, including social, ethical, legal, psychological and clinical care
- Accessible and visual, with flow-charts, tables, facts, figures and red-flags featured throughout
- Supported by underpinning evidence-base
- Contributed by a large team of international experts from the UK, Malaysia, New Zealand, America, The Netherlands and Canada
- Almost every topic is written, or advised by a nurse

Online ISBN: 978-1-118-69031-4

Mental Health Nursing

Mental Health Nursing at a Glance

GRAHAME SMITH

- Everything you need to know about Mental Health Nursing...at a Glance!
- Breaks down complex aspects of mental health care in an accessible and un-intimidating way
- The perfect revision and consolidation textbook
- Linked closely with the NMC standards for pre-registration nursing education, and the essential skills clusters framework
- Explores a broad range of mental health disorders, from care of children right up to care of older people
- Looks at mental health nursing in all settings, including acute, forensic and community
- Highly visual colour presentation with summary boxes, reflective opportunities and case studies to improve the learning experience

Print ISBN: 978-1-118-46528-8 (Paper) US$31.95 • OCT 2014 • 120PP

Intellectual Disability Nursing

Learning Disability Nursing at a Glance

BOB GATES, DEBRA FEARNS & JO WELCH

- Explores the full spectrum of care and addresses the needs of people with learning disabilities across the life span, from childhood to adolescence, adulthood and old age
- The perfect revision and consolidation textbook
- Highly visual colour presentation, with full colour illustrations throughout
- Includes expert contributions from learning disability academic staff as well as clinicians
- Embraces both primary and secondary care perspectives
- Supported by a companion website featuring case studies to further test readers’ knowledge

Online ISBN: 978-1-118-50613-4

Nursing Special Topics

Fundamentals of Paramedic Practice

A Systems Approach

SAM WILLIS & ROGER DALRYMPLE

- Brings together theoretical and clinical topics in one user-friendly book
- Every chapter begins with a case study to provide clinical relevance
- Practice insight boxes throughout provide inside information on a topic
- Includes fully coloured photographs, illustrations and tables
- End-of-chapter activities for self-test
- Accompanying website features additional resources

Print ISBN: 978-1-118-46627-6 (Paper) US$47.95 • DEC 2014 • 488PP
Online ISBN: 978-1-118-49083-9
Veterinary Anesthesia, Analgesia & Pain Medicine

**Canine and Feline Anesthesia and Co-Existing Disease**

**LINDSEY B.C. SNYDER & REBECCA A. JOHNSON**

*Canine and Feline Anesthesia and Co-Existing Disease* is the first book to draw together clinically relevant information on the anesthetic management of dogs and cats with existing disease conditions.

- Covers a wide range of common presenting diseases
- Offers specific guidance for preventing and managing complications related to pre-existing disease
- Provides a practical, clinically oriented guide for sedating patients with specific conditions
- Organized by body system to allow quick access to information
- Presents the most current concepts about veterinary anesthesia and analgesia, especially as it pertains to patients with co-existing disease

Online ISBN: 978-1-118-39158-7

---

Veterinary Imaging

**Veterinary Image-Guided Interventions**

**CHICK WEISSE & ALLYSON BERENT**

*Veterinary Image-Guided Interventions* is the only book dedicated to interventions guided by imaging technology.

- Written and edited by leading experts in interventional endoscopy, cardiology, oncology and radiology
- Chapters include the history and background of the procedures, patient work-up, equipment lists and patient follow-up and outcomes
- Split into body systems, the technical aspects of each procedure are presented using highly illustrated step-by-step guides
- Relevant to a wide range of veterinary specialists
- A companion website offers videos on procedures mentioned in the text

Online ISBN: 978-1-118-37825-0

---

Veterinary Ophthalmology

**Essentials of Veterinary Ophthalmology**

3rd Edition (Previously Announced)

**KIRK N. GELATT**

This book offers an updated introduction to the diagnosis and clinical management of ocular conditions in veterinary patients, providing trusted information in a user-friendly format.

- Classic definitive reference with an easy-to-use format
- Focuses on small animal and equine ophthalmology, with additional information on other species
- Presents 450 high-quality color photographs to demonstrate conditions
- Updated edition provides new chapters on morphology, physiology and pharmacology
- Includes a companion website offering review questions and the figures from the book in PowerPoint format

Online ISBN: 978-1-118-77187-7

---

Veterinary Medicine / Exotic Pets

**Dentistry in Rabbits and Rodents**

**ESTELLA BOEHMER**

This practical guide is aimed at helping clinicians successfully diagnose and treat malocclusions in rabbits and rodents in their own surgeries.

- Covers all small mammal species commonly kept as pets
- The dental anatomy and physiology of each species is discussed alongside malocclusions and dental disease
- Special x-ray positioning techniques and annotation of radiographs with unique reference lines helps guide the reader towards successful interpretation and diagnosis
- Once a diagnosis has been reached, selection of different treatments and the advantages and disadvantages of each surgical technique are discussed
- Offers helpful directives for approaching and treating dental disease without the need for referral to a specialist or the use of expensive equipment

Online ISBN: 978-1-118-80025-4-7
Bovine Reproduction
RICHARD M. HOPPER
A comprehensive, current reference that provides information on all aspects of reproduction in the bull and cow for bovine practitioners, theriogenologists, animal scientists and veterinary students.
✦ Offers fundamental knowledge on evaluating and restoring fertility in the bovine patient
✦ Provides a global view of bovine theriogenology
✦ Full colour throughout, with 83 chapters and more than 550 images
✦ Each section covers the anatomy and physiology, breeding management, reproductive surgery and obstetrics and pregnancy wastage in the cow

Gracey's Meat Hygiene
11th Edition
DAVID S. COLLINS & ROBERT J. HUEY
Gracey’s Meat Hygiene, Eleventh Edition is the definitive reference for veterinarians working in meat hygiene control.
✦ The updated edition features a refreshed design, colour photographs and illustrations throughout
✦ Includes new content on meat hygiene inspection covering the components of an integrated food safety management system as well as animal health and welfare controls in the ‘farm to fork’ system
✦ Offers a practical approach to health and safety in meat processing and identifies the hazards and then describes how these can be best controlled
✦ With contributions from veterinary and industry experts, this edition is both a valuable teaching aid and a practical reference for veterinarians and all food business operators and their staff

Equine Pharmacology
CYNTHIA COLE, BRADFORD BENTZ & LARA MAXWELL
Equine Pharmacology combines highly practical therapeutic guidance with reliable scientific background information to provide a clinically relevant resource.
✦ Offers a quick reference to information on drug options for many diseases relevant to horses
✦ Combines practical, clinically oriented advice with scientific rigor
✦ Acts as an aid to selecting and implementing therapeutic options
✦ Allows searching by affected system or by specific diseases
✦ Brings together veterinary pharmacologists and equine clinicians to offer a wide perspective to the topic

Canine and Feline Behavior for Veterinary Technicians and Nurses
JULIE SHAW & DEBBIE MARTIN
Canine and Feline Behavior for Veterinary Technicians and Nurses provides the veterinary technician with a solid foundation in behavioral medicine.
✦ Focuses on the technician's central role in behaviour medicine, emphasizing opportunities for coordinating and assisting the behavioral health care team to ensure that it is effective and efficient
✦ Offers advice on effective client communication to better educate pet owners and assist the veterinarian with behavioural intervention
✦ Provides a full understanding of the behavioural, mental, and emotional needs of canine and feline patients
✦ A companion website hosts forms, handouts, review questions, and images from the book for download
Pain Management for Veterinary Technicians and Nurses

MARY ELLEN GOLDBERG & NANCY SHAFFRAN

- This title guides readers through the important concepts of animal pain management, providing specific approaches to managing pain in a wide variety of veterinary conditions
- Emphasizes the technician's role in caring and advocating for the patient
- Covers a variety of species, from dogs and cats to zoo animals and wildlife
- Features full-colour photographs to demonstrate concepts
- This is the first book on veterinary pain management edited by veterinary technicians for veterinary technicians
- A companion website offers review questions, charts and protocols, videos and the figures from the book in PowerPoint

Online ISBN: 978-1-118-81085-9

Starting out in Statistics
An Introduction for Students of Human Health, Disease, and Psychology

PATRICIA DE WINTER & PETER M. B. CAHUSAC

- An accessible book that provides the statistical foundations needed to successfully pursue a degree in the biological and social sciences
- Written in an engaging and accessible style
- Provides the necessary background and tools for students to use statistics confidently and creatively in their studies and future career
- Includes modern, up-to-date methodology with illustrations throughout to assist students taking courses in a range of human-related sciences, from biomedicine to psychology

Online ISBN: 978-1-118-92038-1

Anatomy and Physiology Workbook For Dummies

2nd Edition

JANET RAE-DUPREE & PAT DUPREE

- This book offers hundreds of practice problems, memorization tricks, and study tips to help you score higher in your anatomy and physiology course
- You can pick and choose the chapters and types of problems that challenge you the most, or you can work from cover to cover to get a complete review of the subject
- With this handy guide, you'll be identifying bones, muscles, and tissues like a pro in no time

Online ISBN: 978-1-118-94008-2

Essentials of Ecology

4th Edition (Previously Announced)

MICHAEL BEGON, ROBERT W. HOWARTH & COLIN R. TOWNSEND

- Essentials of Ecology presents introductory ecology in an accessible, state-of-the-art format designed to cultivate the novice student's understanding of, and fascination with, the natural world
- In a concise, engaging style, this text outlines the essential principles of ecology from the theoretical fundamentals to their practical applications
- Full color artwork, simple pedagogical features, and a wide range of carefully-chosen examples make this book an ideal introduction to ecology for students at all levels

Print ISBN: 978-0-470-90913-3 (Paper) US$141.95 • AUG 2014 • 480PP
Online ISBN: 978-1-118-80231-1
Supplement Available
Integrative Organismal Biology
LYNN B. MARTIN, CAMERON K. GHALAMBOR & ART WOODS
✦ This title provides a synthetic understanding of the role of the individual in evolution
✦ Emphasizes key topics such as phenotypic plasticity and flexibility and summarizing emerging areas such as ecological immunology, oxidative stress biology and others
✦ Covers theory and mechanism from both classical and modern perspectives
✦ A concluding section illustrates the concepts through a series of case studies on life processes such as aging, reproduction, and immune defense
✦ Written and edited by leaders in the field who are actively engaged in teaching and research to create an important an advanced textbook for students and researchers across the numerous subdisciplines of integrative biology
Online ISBN: 978-1-118-39879-1

Plant Ecology
Ecology of Wildfire Residuals in Boreal Forests
AJITH PERERA & LISA BUSE (Previously Announced)
✦ Brings together fire behaviour, ecological scale, vegetation ecology, and conservation biology to provide a cross disciplinary, multi-scale, and an integrative discussion of forest fire residuals
✦ Captures the state of knowledge with a meta-analysis of research trends during the past few decades, with a comprehensive review of the literature, a compilation of key references, and a list of key topics relevant to the study of boreal wildfire residuals
✦ Identifies the major gaps and uncertainties in the present body of knowledge, including a critique of study techniques and reporting practices to date, and proposes a set of terms and definitions and a list of research questions and priorities
✦ Includes the authors’ observations and research experience from boreal Canada, and information extracted from interactions with North American and European ecologists, forest managers, and conservationists
Print ISBN: 978-1-444-33653-5 (Cloth) US$119.95 • SEP 2014 • 272PP
Online ISBN: 978-1-118-87048-8

Tropical Ecology
Ecology of Lianas
STEFAN SCHNITZER
✦ First comprehensive review of the ecology of this group of important plants, integral to forest community ecology
✦ Essential reading for forest community ecologists
✦ Written by the world’s leading experts on this group of plants
Print ISBN: 978-1-118-39249-2 (Cloth) US$151.95 • DEC 2014 • 504PP
Online ISBN: 978-1-118-39240-9

Conservation Science
Free-ranging Cats
Behavior, Ecology, Management
STEPHEN SPOTTE
✦ This book provides the most comprehensive review on the behaviour, ecology and management of free-ranging domestic cats, whether they be owned, stray, or feral
✦ It reviews management methods and their progress, and questions several widely accepted views of free-ranging cats, notably that they live within dominance hierarchies and are highly social
✦ It adopts a functional approach, emphasizing the sensory biology, reproductive physiology, nutrition, and space partitioning
✦ A valuable reference for ecologists, conservation scientists, animal behaviorists, wildlife nutritionists, wildlife biologists, research and wildlife veterinarians and clinical veterinarians
Print ISBN: 978-1-118-88401-0 (Cloth) US$99.95 • SEP 2014 • 320PP
Online ISBN: 978-1-118-88402-7
Cell & Molecular Biology

Cell and Molecular Biology and Imaging of Stem Cells
HEIDEST SCHATTTEN

- A comprehensive and timely review of developments in cell and molecular biology of stem cell imaging
- Features original and review articles written by experts in the field
- Chapters cover a broad spectrum, from novel imaging with multiphoton flow cytometry for the identification of biomarkers and applications, to embryoid bodies and the central nervous system, and the role of centrosomes in stem cell division and differentiation
- A must-read for graduate students and academic and industry professionals in the expanding field of stem cell biology

Print ISBN: 978-1-118-28410-0 (Cloth) US$149.95 • NOV 2014 • 312PP
Online ISBN: 978-1-118-28507-7

Synthetic Biology
ROBERT A. MEYERS

- A two volume set containing a selection of updated articles from the acclaimed Meyers Encyclopedia of Molecular Cell Biology and Molecular Medicine, the most authoritative resource in cell and molecular biology, combined with new articles by “founding fathers” in the field
- Covers current research trends with articles authored by an impressive number of leading figures in the field
- Content is presented in nine sections covering:
  - Biological Basis
  - Modeling
  - Modular Parts and Circuits
  - Modular Parts and Circuits Applications
  - Synthetic Biological Pathways
  - Synthetic Genomes Techniques
  - Synthetic Genomes
  - Chemicals Production
  - Diseases and Therapeutics
- Ideal as a research reference and as advanced reading for students and post doctorates

Print ISBN: 978-3-527-33482-7 (Cloth) US$399.95 • NOV 2014 • 896PP
Online ISBN: 978-3-527-66855-7

Cell Biology

Neural Stem Cell Assays
N. KAUR & MOHAN VEMURI

- A comprehensive review of basic methods for the entire neural stem cell workflow
- Includes background on neurobiology and neural stem cell applications in cell therapy and drug discovery
- Provides comprehensive solutions to every part of the neural stem cell workflow, with detailed but easy-to-use protocols
- Features coverage of micro RNA analysis, cryopreservation of neural stem and progenitor cells, and gene expression analysis

Print ISBN: 978-1-118-30825-7 (Cloth) US$149.95 • NOV 2014 • 312PP
Online ISBN: 978-1-118-30826-4
Biotechnology (Life Sciences)

Biotechnology
An Illustrated Primer, 2nd Edition
(Previously Announced)
ROLF D. SCHMID & RUTH HAMMELEHLE

• The number one Biotech primer, now completely redesigned!
• New attractive large format, with two-page layout. One page features a full colour figure and the opposite page contains the explanatory text, allowing readers to balance rapid visual-based learning with in-depth information
• Each of the 140 current topics has been revised and expanded by 25%, with 20 additional topics added
• The content has been restructured to follow the new teaching curricula of most academic courses
• An ideal text for students in biotechnology and biology courses, as well as laboratory technicians and process engineers

Print ISBN: 978-3-527-33261-8 (Cloth) US$105.00 • SEP 2014 • 348PP
Online ISBN: 978-3-527-68705-3

From Physics to Daily Life
Applications in Biology, Medicine, and Healthcare
BEATRICE BRESSAN

• Showcases all aspects cross-disciplinary knowledge transfer through a number of outstanding examples, many of which were developed at CERN
• Deals with how tech transfer is managed and the related economic aspects
• The revised edition has been carefully re-written, ensuring easy reading in a homogenous style
• Appeals to a wide range of audience, from policy makers, technology companies, investors, strategic planners in research and technology, as well as the research community

Print ISBN: 978-3-527-33261-8 (Cloth) US$105.00 • SEP 2014 • 348PP
Online ISBN: 978-3-527-68705-3

Biochemistry

Global New Drug Development
An Introduction
(Previously Announced)
JAN A. ROSIER, MARK A. MARTENS & JOSSE R. THOMAS

• A comprehensive, balanced coverage of the technical, scientific and procedural processes of drug development
• Discusses the interaction between each process
• Links the regulatory processes to the development phases
• Written with care and clarity by an Author team with many years of experience in industry and academia
• Part of the ULLA Consortium Series

* This is the most comprehensive and detailed book on drug development I have ever read and I feel that it is likely to become a staple of drug development courses, such as those taught at Masters Level in my own University…” — Professor Mike Coleman, University of Aston, UK (from his review of the final manuscript)

Print ISBN: 978-1-118-41484-2 (Cloth) US$129.95 • SEP 2014 • 424PP

Evolutionary Biology

Genotype-by-Environment Interactions and Sexual Selection
JOHN HUNT & DAVID J. HOSKEN

• The first comprehensive analysis of the role genotype-by-environment interactions play in sexual selection and the potential implications that they have for the evolutionary process
• The editors identified 13 topics that define the field and shed light on the impacts of these interactions on sexual selection, including key topics such as resolving the lek paradox and how genotype-by-environmental interactions can compromise the honesty of sexual signals
• Has implications in applied areas such as conservation science and climate change
• The mix of theory, empirical studies, and practical instructions from world leading experts make this book a particularly potent and definitive guide on the topic
Thin on the Ground
Neandertal Biology, Archeology and Ecology
STEVEN E. CHURCHILL

- Highlights and contrasts the differences between Neandertals and early modern humans and explores the morphological, physiological, and behavioural adaptive solutions which led to the extinction of the Neandertals and the population expansion of modern humans
- Reviews and builds on data from a variety of disciplines to create a new theoretical framework for understanding Neandertal ecology and their interactions with modern humans
- Rigorously reviews the inferences drawn from archaeological, paleoenvironmental and geological records
- Organized around four main aspects of hunter-gatherer ecology: glacial and interglacial Eurasian ecology, subsistence economy, bioenergetics, and human ecology

Print ISBN: 978-1-118-59087-4 (Cloth) US$149.95 • SEP 2014 • 472PP
Online ISBN: 978-1-118-59083-6

Clinical Microbiology (Life Sciences)

Autophagy, Infection, and the Immune Response
WILLIAM JACKSON

- A practical approach to understanding autophagy as a host cellular response to infection
- Emphasizes practical approaches to demistify complicated protocols
- Chapters cover virus interactions with autophagy machinery, autophagy parasitic infection, and interactions of bacteria with the autophagic pathway
- Explores autophagy in relation to systemic immune responses including antigen presentation, ER stress, and production of IFN-gamma

Print ISBN: 978-1-118-67764-3 (Cloth) US$149.95 • DEC 2014 • 362PP
Online ISBN: 978-1-118-67755-1

Mycology

Microsporidia
Pathogens of Opportunity
LOUIS M. WEISS & JAMES J. BECNEL

- The long-awaited update to the standard microsporidia reference text The Microsporidia and Microsporidiosis
- Provides a comprehensive summary of the literature on microsporidia and microsporidiosis
- Written by an international team of authors with representatives from each of the main research groups working on microsporidia
- Chapters provide comprehensive overviews of general methodology as well as special techniques related to these organisms
- An indispensable research resource for biologists, physicians and parasitologists

Print ISBN: 978-1-118-39522-6 (Cloth) US$199.95 • SEP 2014 • 728PP
Online ISBN: 978-1-118-39523-3

Genetics

Analysis of Genes and Genomes
2nd Edition
RICHARD J. REECE

- Covers all aspects of genetic engineering in the post-genomic era, beginning with the basics of DNA structure and DNA metabolism
- Strong emphasis is placed on the latest, post genomic technologies, including DNA macro and microarrays, genome-wide two hybrid analysis, proteomics and bioinformatics
- Uses an example driven, past-to-present approach to allow the experiments of today to be placed in a historical context

Print ISBN: 978-0-470-77781-7 (Paper) US$70.00 • NOV 2014 • 520PP
Supplement Available
Cytogenetic Abnormalities
Chromosomal, FISH, and Microarray-Based Clinical Reporting and Interpretation of Result  (Previously Announced)
S. ZNEIMER
✦ Provides a systematic review of the biology of microsporidia
✦ Written by an international team of authors representing each of the main research groups working on microsporidia
✦ Chapters provide comprehensive overviews of general methodology as well as special techniques related to these organisms

Animal Genetics

Molecular and Quantitative Animal Genetics
HASAN KHATIB
✦ A single volume textbook that introduces the reader to the field of animal genetics and genomics
✦ Discusses issues particularly relevant to animal science and breeding
✦ Written by a cast of leading international scientists and instructors in the field
✦ Student friendly coverage of the topic supported by full colour figures

Plant Science

Plant Cell Wall Patterning and Cell Shape
HIROO FUKUDA
✦ This book looks at the diverse function of cell walls in plant development, intercellular communication, and defining cell shape
✦ Presented in three sections, with the first section discussing the role cell walls play in defining cell shape. The second section looks more broadly at plant development, while the third and final section looks at new insights into cell wall patterning

Plant Biochemistry

Ecological Biochemistry
Environmental and Interspecies Interactions
GERD-JOACHIM KRAUSS & DIETRICH H. NIES
✦ An up-to-date reference on the multi-functional role of cell walls in plant cell patterning, shape, signalling and development
✦ Highlights the multi-functional role of cell walls in plants
✦ Goes beyond biosynthesis to look at cell wall impact on patterning, shape, and development
✦ Explores the role of cell walls in intercellular signaling
✦ Companion website offers an extended version of the introductory chapter on Basic Biochemical Roots at: http://www.wiley.com/go/Krauss/Nies/EcologicalBiochemistry
Recent Advances in Polyphenol Research, Volume 4

Volume 4 of the highly regarded and successful Recent Advances in Polyphenols series sponsored by Groupe Polyphenols

- Provides cutting edge reviews of exciting beneficial aspects of polyphenols in human health and nutrition
- Essential information for plant scientists and biochemists
- Commercially important details for those involved in food and pharmaceutical product development

Print ISBN: 978-1-118-32967-2 (Cloth) US$249.95 • OCT 2014 • 440PP
Online ISBN: 978-1-118-32963-4

Neuroscience

The Cranial Nerves

An Introduction to the Unique Nerves of the Head, Neck, and Special Senses

JOEL A. VILENSKY & SID GILMAN

- Merges foundational anatomical and biological information with intriguing clinical cases to introduce the anatomy and diverse function of the cranial nerves
- Provides basic and clinical insights to the impact of cranial nerves on human health
- Illustrative clinical cases demonstrate the real-life importance of cranial nerves
- Detailed figures accompany anatomical and biological descriptions to help readers visualise complex concepts

Print ISBN: 978-1-118-49201-7 (Cloth) US$TBA • DEC 2014 • 352PP

Neuroendocrinology

Neuropysiology of Neuroendocrine Neurons

WILLIAM E. ARMSTRONG & JEFFREY G. TASKER

This is the first volume in a new Series 'Masterclass in Neuroendocrinology', a co-publication between Wiley and the INF (International Neuroendocrine Foundation) that aims to illustrate highest standards and encourage the use of the latest technologies in basic and clinical research to provide inspiration for further exploration into the exciting field of neuroendocrinology

- Written by a team of internationally renowned researchers, with each chapter presenting a succinct summary of the very latest developments in the field
- Includes an evaluation of different experimental approaches, both in vivo and in vitro, and how the resulting data are interpreted
- Illustrated in full colour throughout

Print ISBN: 978-1-118-60681-0 (Cloth) US$129.95 • DEC 2014 • 384PP
Online ISBN: 978-1-118-60677-3

Entomology

The Braconid and Ichneumonid Parasitoid Wasps

Biology, Systematics, Evolution and Ecology

DONALD L. J. QUICKE

- A comprehensive resource on the behaviour, physiology, development, anatomy, venoms, sex, ecology and evolution of this major group of insects
- The first up to date reference in the market since 1997
- An attractive compendium with full colour throughout
- A must-have reference text for any entomologists working on parasitic wasps

Online ISBN: 978-1-118-90706-1
The Insects
An Outline of Entomology, 5th Edition
P. J. GULLAN & P. S. CRANSTON

Clear, concise and comprehensive text on entomology, placing the field in the centre of the theory and practice of evolution and ecology studies

All chapters thoroughly updated with the latest results from international studies, with a new chapter on ‘Insects in a Changing World’

Major revision on the chapter of systematic and taxonomy

New text boxes on topical issues and studies included in all chapters

Beautifully illustrated with hand-drawn figures and over 50 colour photographs

Accompanying website features downloadable illustrations and links to video clips

Print ISBN: 978-1-118-84615-5 (Cloth) US$99.95 • OCT 2014 • 600PP

Forensic Science

Forensic Photography
A Practitioner’s Guide
NICK MARSH

A practical, hands-on guide that explores the latest technologies, the most common forensic photography techniques and how to achieve optimum results at any given crime scene

Written by an expert with over 25 years of experience in forensic photography

Well-illustrated in full colour throughout

An associated website provides additional images

Print ISBN: 978-1-119-97582-3 (Cloth) US$99.95 • OCT 2014 • 400PP
