Modern Crop Protection Compounds
Second, Revised and Enlarged Edition
3 Volume Set

Edited by Wolfgang Krämer, Burscheid, Germany; Ulrich Schirmer, Heidelberg, Germany; Peter Jeschke, Bayer CropScience, Monheim, Germany; Matthias Witschel, BASF AG, Ludwigshafen, Germany

“Compulsory reading for the doubters of the value of chemical crop protection... a book of which we should be proud.”

Chemistry and Industry (on the previous edition)

This one-stop reference for everyone working in the agrochemical business is the leading reference in the field, with first-class authors from all major crop protection companies, including Bayer, Dow, Syngenta and BASF.

In three volumes, one each on herbicides, fungicides and insecticides, it provides up-to-date information on the chemical properties, mode of action, range of application, industrial-scale synthesis and commercial products.

The new edition has been updated and expanded by more than 50 new compounds and their mechanisms.

A truly comprehensive source of top quality information!
